Dice - Salesforce Manager, AI & Agentforce Delivery

Job URL

Dear Hiring Manager,

I am excited to apply for the Salesforce Manager, AI & Agentforce Delivery position at NeuraFlash. With over seven years of experience implementing AI-driven platforms, including Salesforce and Agentforce, I have a proven track record of transforming customer experiences and streamlining business workflows in telecom, healthcare, and finance industries. In my current role at Docker, Inc., I successfully designed and executed scalable integrations that improved operational efficiency by 35% and enhanced user satisfaction across 300+ clients. My leadership experience includes mentoring a team of developers, facilitating knowledge-sharing workshops, and managing technical solution designs that align with best practices. I am confident in my ability to lead your team in delivering innovative solutions that push the boundaries of AI capabilities and drive measurable business outcomes.

Thank you for considering my application. I look forward to discussing how my expertise and accomplishments can contribute to NeuraFlash's success.

Best regards,
Triet Le
