Eon.io - Software Engineer

Job URL

Dear Hiring Manager, I am excited to apply for the Growth Engineer position at Eon, where innovation in cloud data infrastructure and AI-driven customer engagement is paramount. My extensive experience in Salesforce development and cloud automation, combined with my proven ability to architect scalable systems, aligns perfectly with your needs for a candidate who can drive demand generation and pipeline acceleration. At Docker, I implemented AI-powered workflows that enhanced our marketing efficiency by 60%. This achievement not only illustrates my technical expertise but also my commitment to data-driven growth. I am eager to leverage my skills in building integrations and optimizing web functionalities at Eon, allowing the company to capitalize on emerging opportunities in tech ecosystems. I look forward to the opportunity to contribute to Eon's success. Best regards, Triet Le
