# Triet Le

## Senior Software Engineer | AI Specialist

San Carlos, CA 94070 | (480) 666-1845 | trietle1997@outlook.com | LinkedIn

### SUMMARY

8x-certified Salesforce professional with over 7 years of experience in software development including AI-assisted solutions. Proven record in building scalable cloud services and client-facing REST APIs, effectively collaborating across teams to solve complex engineering problems in finance and legal tech. Exceptional communicator with a strong focus on mentorship and technical leadership.

### SKILLS

**Cloud-Native Application Hosting:** Azure, AWS, GCP

**REST API Design:** OpenAPI/Swagger, API-first approach

**Programming Languages:** C#/.NET, SQL, Apex, Java

**Front-end Development:** Angular, Lightning Web Components

**Containerization:** Docker, Kubernetes

**DevOps Practices:** GitHub Actions, CI/CD pipelines, Git version control

**AI & ML Technologies:** Large Language Models, AI-assisted development tools

**Agile Methodologies:** Scrum, Iterative Development

**Technical Leadership:** Mentoring, code reviews, stakeholder collaboration

### PROFESSIONAL EXPERIENCE

**Docker, Inc** | *Senior Software Engineer*

*Dec 2024 - Present | Seattle, Washington, United States*

- Designed and implemented REST APIs for AI-driven document processing solutions, focusing on client experience and ergonomic interfaces, improving user adoption across multiple platforms by 40%.
- Developed scalable cloud services for processing millions of documents monthly integrating AI/ML capabilities, achieving a 50% reduction in processing time and enhancing data accuracy across various applications.
- Led cross-functional collaboration with engineers and product managers to influence product architecture decisions, enhancing system stability and facilitating rapid deployment cycles, reducing downtime by 25%.
- Integrated AI-assisted development tools to streamline workflows and improve code quality, achieving 30% faster delivery times across 20+ projects while mentoring junior engineers through the process.
- Establishing technical documentation and standards for API development using OpenAPI/Swagger, ensuring consistency and enhancing developer experience, leading to a 25% decrease in onboarding time for new developers.
- Implemented DevOps practices including CI/CD pipelines and automated testing frameworks, reducing deployment errors by 45% and improving code coverage metrics significantly.

**Amazon Web Services (AWS)** | *Senior Software Developer*

*Jul 2023 - Dec 2024 | Seattle, Washington, United States*

- Contributed to the design of client-facing REST APIs, enhancing the user experience by aligning with client needs, resulting in a 30% increase in performance metrics.

- Developed cloud-native applications leveraging Azure and AWS for seamless document management, improving processing efficiency for finance and legal applications by 35%.
- Mentored junior engineers on best practices for developing cloud services and RESTful interfaces, contributing to the engineering culture and improving team productivity by 20%.
- Collaborated with product managers to gather requirements for new features, providing technical insights that influenced product direction and ensured alignment with business objectives.
- Administered AI/ML technology integrations to streamline document processing workflows, enhancing overall system accuracy and reducing error rates in document handling.

### **Amazon Web Services (AWS)** | *Salesforce Developer*

*Oct 2021 - Jul 2023 | Seattle, Washington, United States*

- Designed and implemented secure REST APIs connecting Salesforce to financial services platforms, ensuring compliance and enhancing integration consistency which improved operational reporting accuracy by 35%.
- Developed engaging user interfaces using Lightning Web Components and Angular, leading to a 30% increase in user interaction and satisfaction within key customer engagements.
- Executed large-scale data migrations supporting healthcare applications, ensuring data integrity and compliance with industry regulations while improving overall operational efficiency by 40%.
- Implemented systematic unit testing and CI/CD processes, achieving a 98% code coverage rate that significantly enhanced deployment reliability and minimized manual validation efforts.

### **Deloitte Consulting** | *Salesforce Developer*

*Feb 2019 - Sep 2021 | Gilbert, Arizona, United States*

- Developed Salesforce solutions for complex financial processes, improving system efficiency for over 1,800 users and achieving significant compliance adherence through automated workflows.
- Collaborated on cross-functional teams to enhance Salesforce capabilities, including case management automation, which reduced resolution time by 30% and improved the overall client support experience.
- Provided mentorship to new developers, enhancing team knowledge through guidance on project best practices, fostering collaboration and accelerating the learning curve for junior team members.
- Executed agile methodologies in project management, leading to timely requirements gathering and iterative feedback loops which optimized project outcomes and client satisfaction.
- Created comprehensive documentation for enterprise applications, significantly improving user onboarding experiences and raising adoption rates by providing clear guidance and support.

### **Arizona State University - W. P. Carey School of Business** | *IT Support Specialist*

*Jun 2016 - Dec 2018 | Tempe, Arizona, United States*

- Provided tier 2 tech support resolving over 100 technical issues per week, ensuring systems maintained operational integrity by following security protocols.
- Collaborated with cross-functional teams to deliver agile solutions to address crises and tech failures, improving response times by 40% and increasing user satisfaction among faculty and staff.

### **EY** | *Risk Advisory Intern*

*Jun 2018 - Aug 2018 | Greater Phoenix Area*

- Conducted risk assessments for Fortune 500 clients, identifying vulnerabilities and recommending solutions that improved compliance across technological infrastructures.
- Applied analytic skills to evaluate over 20 processes, improving stakeholder reporting capabilities through accurate data collection and analysis.

## CERTIFICATIONS

- Salesforce Certified Application Architect
- Salesforce Certified Platform Developer II
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder Certification
- Salesforce Certified Administrator (SCA)
- Salesforce Certified Platform Developer I

## EDUCATION

**W. P. Carey School of Business - Arizona State University** 2015 - 2018

Bachelor of Science (B.S.), Business Data Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
