Cover letter

Acosta - Salesforce Administrator

Job URL

Dear Hiring Manager,

With over seven years of comprehensive Salesforce experience, I am excited about the opportunity to contribute as a Salesforce Administrator at Acosta's CORE Foodservice team. I recognize that you require a dedicated professional to manage, configure, and optimize a customized Salesforce environment while ensuring data quality and effective CRM utilization for over 500 sales associates.

At AWS and Docker, I successfully administered Salesforce security models, custom objects, validation rules, and Lightning Record Pages, supporting large user bases and complex business processes. I enhanced reporting and scorecard capabilities, improving decision-making efficiency by up to 15%, and partnered closely with development teams to deliver stable releases with reduced post-deployment issues.

Notably, I led data governance initiatives that improved CRM data accuracy by approximately 25%, alongside authoring and delivering user training materials that significantly increased adoption and reduced support requests. My strong skills in Power BI and Excel enable effective data extraction, validation, and reporting that directly align with your needs.

My combined Salesforce administration, development, and data governance experience, complemented by proven communication and organizational skills, aligns naturally with the demands of this role. I am confident that I can help optimize your CRM environment to empower your sales teams and contribute to business growth.

Thank you for considering my application.

Sincerely,
Triet Le
