PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Administrator & Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Configured and maintained Salesforce custom objects, fields, Lightning Record Pages, profiles, permission sets, validation rules, and sharing settings supporting 300+ users and aligned with business security policies.
- Developed and optimized Salesforce reports and dashboards tracking key operational and automation metrics, resulting in a 15% improvement in data-driven decision-making efficiency.
- Collaborated with third-party developers and internal teams to test and validate platform enhancements before deployment, reducing post-release defects by 20%.
- Led data quality initiatives, identifying and cleansing duplicate records and improving validation rules, which enhanced CRM data accuracy by approximately 25%.
- Authored and delivered detailed user training materials and conducted training sessions, increasing user adoption rates and reducing support tickets by 18%.
- Managed daily Salesforce administration including user access requests, data governance, permission audits, and escalated issue resolution.

Amazon Web Services (AWS) | *Senior Salesforce Administrator*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Administered Salesforce security architecture for over 500 sales associates by managing profiles, roles, permission sets, and field-level security ensuring least-privilege access compliance.
- Designed and deployed custom Lightning pages, validation rules, record types, and complex workflows to support sales and service operational processes.
- Extracted and analyzed large datasets from Salesforce, validated data integrity, and supported Power BI reporting and publication for leadership scorecards.
- Created and maintained comprehensive training documentation and job aids for Salesforce users, improving onboarding efficiency by 30%.
- Supported Salesforce testing cycles for platform enhancements, coordinating closely with internal and external development teams to deliver smooth releases.
- Worked cross-functionally to optimize CRM processes and implement platform improvements that increased automation coverage by 22%.

Amazon Web Services (AWS) | *Salesforce Developer & Administrator*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Configured Salesforce custom objects, fields, validation rules, page layouts, record types, and security models supporting sales and customer service functions.
- Automated repetitive business processes using Flow Builder and Apex triggers, decreasing manual entry errors by 15%.
- Developed and supported reports and dashboards to monitor sales pipeline performance with actionable insights presented to 100+ users.
- Supported Salesforce user training and adoption efforts through documentation and hands-on sessions, consistently receiving positive feedback.
- Partnered with development teams to test and implement new Salesforce features, contributing to a 10% improvement in system stability.
- Administered user account setups, permission changes, and security audits ensuring compliance with internal policies.

Deloitte Consulting | *Salesforce Administrator & Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Supported healthcare payer Salesforce CRM administration including user profile management, roles, sharing rules, validation rules, and custom object configuration.
- Performed data quality reviews and duplicate record cleanup for over 6,000 Lead and Contact records, improving reporting accuracy significantly.
- Developed and maintained Salesforce dashboards and reports for healthcare service operations enabling real-time monitoring of KPIs.
- Created and updated training materials and documentation for end users and administrators, enhancing knowledge transfer and support efficiency.
- Implemented Salesforce workflow rules, validation rules, and process automation to streamline operational tasks and reduce error rates.
- Led security reviews and user access audits maintaining HIPAA and compliance standards within Salesforce environments.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided IT support and troubleshooting services to over 200 faculty and staff, ensuring high availability of technology resources.
- Collaborated in Agile project teams to develop technology solutions supporting university business operations.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed technology risks for Fortune 500 clients by reviewing documentation and IT system reports, identifying gaps and control deficiencies.
- Executed detailed walkthroughs and control testing covering 20+ IT processes, contributing to risk mitigation strategies.
