Job description

Agilitek Solutions - Salesforce Implementation Consultant

Job URL

Salesforce Implementation Consultant

Agilitek Solutions is a software and services company helping sports and entertainment organizations unify data and drive revenue intelligence through Salesforce-native products and consulting. The Salesforce Implementation Consultant will deliver Salesforce implementations, configure and administer Salesforce, migrate customer data, manage client relationships, and provide technical and business support.

Hiring Manager

Brandon Crossley

Responsibilities

Functional consulting related to the implementation of one or more of: Sales Cloud, Service Cloud, Marketing Cloud, Contact Center and Data Cloud. Note that no candidate is expected to have deep expertise in all of these Salesforce products, but having strength in at least 2 of them will be required, and growing your familiarity and basic competence in more of them will be expected

Administration, customization, and configuration of Salesforce for existing implementations

Data migration from legacy systems (using Data Loader, XLS, SOQL, and potentially SQL from time to time), for Agilitek customers on-boarding to Agilitek products within Salesforce

Managing a portfolio of existing Agilitek customers, holding recurring meetings with them to train them on new functionality, capture new and evolving requirements, and generally maintain healthy customer relationships

Reactive support to technical and business issues related to Salesforce or Agilitek software products
