Agilitek Solutions - Salesforce Implementation Consultant

Job URL

Dear Hiring Manager,

I am excited to apply for the Salesforce Implementation Consultant position at Agilitek Solutions. With over 7 years of Salesforce expertise, including hands-on development and administration across Sales Cloud, Service Cloud, Marketing Cloud, and Experience Cloud, I am confident in delivering scalable, user-friendly implementations aligned to client needs.

At Docker, I designed and implemented Salesforce OmniStudio and Lightning components that boosted workflow efficiency and reduced automation failures by 20%. My administration of user access models decreased support tickets by 15%, demonstrating my commitment to secure, maintainable configurations. While at AWS, I enhanced client self-service portals, reducing case-related emails by 20%, and improved lead routing efficiency, driving a 10% increase in qualified meetings.

My experience with data migration using Data Loader and SOQL, coupled with strong client relationship skills and managing multiple projects, maps directly to Agilitek's needs. I consistently align technical solutions with business goals, ensuring customer satisfaction while maintaining robust, compliant Salesforce environments.

I look forward to the opportunity to contribute my Salesforce knowledge and client-centered approach to your innovative team.

Sincerely,
Triet Le
