Cover letter

BD - Salesforce CPQ Administrator / Analyst

Job URL

Dear Hiring Manager,

I am excited to apply for the Salesforce CPQ Administrator / Analyst position at BD, bringing over 7 years of progressive experience administering and optimizing Salesforce CRM and CPQ platforms within healthcare and technology sectors. In my current role at Docker, Inc, I administer Salesforce CPQ for over 200 users, enhancing quoting efficiency by 22% through optimized configurations and automation. Furthermore, I drive sales performance insights by developing actionable Salesforce and Power BI dashboards that improved forecasting accuracy by 18%.

My experience managing user access, security models, and data governance aligns directly with BD's need to maintain compliant commercial systems that evolve with business needs. At AWS, I led data cleansing and integration initiatives which improved CRM data quality and enabled aligned reporting across Salesforce, Power BI, and SAP S/4HANA—enhancing decision-making at leadership levels.

With a strong foundation in Salesforce administration, Salesforce CPQ, and business analytics, coupled with hands-on Power BI and data visualization expertise, I am confident that my technical skills and proactive collaboration style will support BD's mission to advance healthcare through innovative and operationally excellent solutions.

Thank you for considering my application. I look forward to the opportunity to discuss how my background can contribute to your team's success.

Sincerely,

Triet Le
