### PROFESSIONAL EXPERIENCE

**Docker, Inc** | *Senior Salesforce Administrator & Developer*

*Dec 2024 - Present | Seattle, Washington, United States*

- Administered Salesforce user access and security by managing 150+ profiles, permission sets, custom permissions, and sharing rules, reducing access-related incidents by 15%.
- Designed and enhanced record-triggered and screen flows to automate complex business processes, replacing 70% of legacy workflow rules and process builders, improving system maintainability.
- Led Salesforce platform optimization using AI tools including Agentforce for smarter case triage, resulting in a 20% increase in case routing accuracy.
- Built API integrations with external SaaS platforms, increasing data synchronization efficiency and reducing manual data entry by 25%.
- Created and maintained technical documentation covering configuration changes and security models, serving as the single source of truth for cross-functional teams.
- Developed dashboards and reports tracking key CRM metrics and user adoption to guide leadership decision-making.

- Utilized Apex batch processing to handle 250,000+ records monthly, cutting automation failure rates by around 20%.

**Amazon Web Services (AWS)** | *Senior Salesforce Administrator & Developer*

*Jul 2023 - Dec 2024 | Seattle, Washington, United States*

- Managed Salesforce security model including profiles, roles, permission sets, and field-level security for over 500 enterprise users ensuring compliance with HIPAA and internal policies.
- Configured custom metadata types and permission sets to support dynamic access controls across complex Sales Cloud and Service Cloud processes.
- Implemented multiple Salesforce flows automating lead routing and opportunity management, boosting qualified meeting bookings by nearly 10%.
- Conducted regular Salesforce release assessments and sandbox deployments, ensuring new features were integrated with zero critical defects.
- Collaborated in an Agile environment, participating in sprint planning, daily stand-ups, and backlog grooming to deliver iterative platform improvements.
- Developed OmniStudio components (OmniScripts, DataRaptors, FlexCards) improving guided customer workflows for healthcare CRM cases.
- Designed Experience Cloud portal enhancements that reduced inbound service emails by approximately 20% through better self-service.

**Amazon Web Services (AWS)** | *Salesforce Developer & Administrator*

*Oct 2021 - Jul 2023 | Seattle, Washington, United States*

- Supported Salesforce administration tasks including user management, security audits, validation rules, and workflow optimization improving data quality by 15%.
- Developed Apex REST services and integrations leveraging REST/SOAP APIs, Platform Events, and Change Data Capture to support scalable system communication.
- Built Lightning Web Components and FlexCards enhancing the user interface in Sales Cloud and Experience Cloud.
- Participated in Agile delivery processes including design reviews, peer code reviews, automated testing, and UAT support.
- Monitored Salesforce data duplication and implemented proactive duplicate prevention rules, improving data health.
- Supported Salesloft integration for 65 users by troubleshooting synchronization issues and validating activity capture.

**Deloitte Consulting** | *Salesforce Developer & Administrator*

*Feb 2019 - Sep 2021 | Gilbert, Arizona, United States*

- Supported Salesforce administration for healthcare payer clients, configuring security roles, permission sets, profiles, data access, and field-level security consistent with HIPAA.
- Implemented workflow automation and validation rules that increased workflow efficiency and reduced data entry errors by 20%.
- Maintained 18 PandaDoc templates integrated with Salesforce reducing document preparation time from 40 to 25 minutes on average.
- Performed data cleansing and enriched 6,000+ Lead and Contact records improving contact accuracy and campaign targeting.

- Developed Apex triggers, Visualforce pages, and Lightning components supporting healthcare service case management and member workflows.
- Produced detailed technical documentation facilitating smooth release cycles and audit compliance.

### Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

*Jun 2016 - Dec 2018 | Tempe, Arizona, United States*

- Provided technical support to 200+ faculty and staff, resolving IT issues promptly and maintaining system security.
- Collaborated with senior technicians to develop agile technology solutions, enhancing service quality and user satisfaction.

### EY | *Risk Advisory Intern*

*Jun 2018 - Aug 2018 | Greater Phoenix Area*

- Reviewed and assessed IT risk documentation for three Fortune 500 clients, identifying critical risks and recommending controls.
- Tested and re-performed 20+ IT processes ensuring compliance and operational efficiency.
- Worked closely with senior staff demonstrating attention to detail and self-driven collaboration.
