# Triet Le

## Senior Salesforce Developer | Salesforce Platform Engineer

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

## SUMMARY

Experienced Senior Salesforce Developer with 7+ years of hands-on expertise in architecting, developing, and optimizing scalable Salesforce solutions. Proven track record in healthcare-focused Salesforce ecosystems, integrating complex workflows involving case and payment-dispute management. Skilled in Apex, Lightning Web Components, Visualforce, Salesforce Flow, and advanced data management including large-scale migrations and cleansing. Adept at leading technical teams, mentoring developers, and delivering cloud integrations, particularly with AWS. Committed to driving process improvements, optimizing performance, and adopting innovative AI-powered Salesforce features.

## SKILLS

**Salesforce Development:** Apex, Lightning Web Components (LWC), Visualforce, Aura Components, Salesforce Flow (record-triggered, screen, scheduled), Batch Apex, Queueable Apex, Platform Events, Invocable Apex

**Salesforce Architecture & Integration:** Scalable Salesforce Architectures, REST APIs, SOAP APIs, Named Credentials, OAuth 2.0, Salesforce OmniStudio (OmniScripts, FlexCards, DataRaptors), Middleware Integration Patterns, AWS Cloud Integrations, Event-Driven Architectures, Change Data Capture

**Salesforce Data Management:** Large-Scale Data Migration, Data Cleansing, Duplicate Management, Data Validation, SOQL, SOSL, Data Loader, Workbench, External IDs, Data Quality Governance

**Salesforce Configuration & Security:** Profiles, Permission Sets, Permission Set Groups, Role Hierarchies, Sharing Rules, CRUD/FLS, Field-Level Security, HIPAA-Aligned Security Practices, Sandbox Management, Deployment Processes, CI/CD Basics

**Healthcare Salesforce Solutions:** Service Cloud Healthcare Workflows, Healthcare Payer CRM, Case Management, HIPAA Compliance, Experience Cloud Portals, Agentforce, Einstein AI Integration

**DevOps & Tools:** Salesforce Release Management, Automated Testing Frameworks, Code Quality Standards, Jira, Confluence, VS Code, Salesforce Inspector

**Programming Languages & Web Technologies:** JavaScript, HTML5, CSS3, JSON, XML

## PROFESSIONAL EXPERIENCE

### Docker, Inc | *Senior Salesforce Developer*

*Dec 2024 - Present | Seattle, Washington, United States*

- Led design and development of scalable Salesforce OmniStudio solutions (OmniScripts, FlexCards, DataRaptors) supporting complex customer service workflows, improving process completion rates by 18%.
- Engineered Apex, LWC, and Visualforce components adhering to Salesforce governor limits and scalability best practices, handling over 250,000 monthly records with 20% fewer automation failures.
- Architected API-driven integrations leveraging REST APIs, Named Credentials, and OAuth 2.0 for seamless data exchange with external SaaS and internal platforms, enhancing data synchronization reliability by 25%.
- Implemented role-based access controls using permission sets and sharing rules, reducing access-related incidents by 15%.
- Mentored junior developers in secure coding and Salesforce best practices, accelerating their onboarding and reducing code defects by 30%.

- Developed AI-assisted workflows with Agentforce and Einstein components, validating case routing accuracy and improving agent response time by 12%.
- Managed Salesforce release cycles including sandbox testing, deployment coordination, and end-user documentation to ensure smooth feature rollouts.

### **Amazon Web Services (AWS)** | *Senior Salesforce Developer*

*Jul 2023 - Dec 2024 | Seattle, Washington, United States*

- Designed and implemented advanced Salesforce solutions for healthcare payer CRM, focusing on member workflows, case management, and HIPAA-compliant security, improving case resolution time by 20%.
- Led integrations between Salesforce and AWS cloud services using REST APIs, JSON, and Apex callouts, supporting event-driven architecture for real-time data updates.
- Configured Lightning Web Components and Experience Cloud portals to enhance secure client self-service, reducing manual support requests by 20%.
- Managed Salesforce security configuration at enterprise scale, optimizing profiles, permission sets, and sharing rules for over 1500 users.
- Implemented complex routing and scheduling workflows with Chili Piper, increasing qualified meeting bookings by nearly 10%.
- Developed multi-channel engagement workflows using Groove, automating follow-ups and improving sales team response rates.
- Constructed executive dashboards using Salesforce Reports and Dashboards, reducing forecasting time by 40%.

### **Amazon Web Services (AWS)** | *Salesforce Developer*

*Oct 2021 - Jul 2023 | Seattle, Washington, United States*

- Developed robust Apex REST services and Salesforce integrations using REST/SOAP APIs and Metadata API to support billing microservices and enterprise workflows.
- Implemented event-driven integrations with Platform Events and Change Data Capture, reducing point-to-point dependencies and improving system scalability.
- Designed FlexCards and Lightning pages for enhanced customer and case visibility with role-based access controls.
- Collaborated with cross-functional teams during solution design, aligning Salesforce capabilities with business requirements and MuleSoft integration patterns.
- Delivered automated testing and UAT support to maintain high-quality releases in Agile environments.
- Supported administration tasks including workflow optimization, security reviews, and data validation to maintain platform health.
- Managed the integration of Salesloft with Salesforce supporting 65 sales users, ensuring accurate activity capture and synchronization stability.

### **Deloitte Consulting** | *Salesforce Developer*

*Feb 2019 - Sep 2021 | Gilbert, Arizona, United States*

- Delivered healthcare payer Salesforce CRM solutions including member services workflows, case management, and HIPAA-aligned security configurations to enhance customer service operations.
- Developed Apex triggers, Visualforce pages, Lightning Components, validation rules, and workflow automations that improved case processing efficiency by 15%.
- Executed data enrichment and cleansing on over 6,000 Salesforce Lead and Contact records, significantly improving data quality and reducing duplicates.

- Maintained 18 PandaDoc templates for proposal automation, cutting document preparation time by over 35%.
- Documented field mappings, security configurations, and deployment steps, supporting audit readiness and compliance in regulated healthcare environments.
- Collaborated with stakeholders to translate healthcare requirements into scalable Salesforce solutions, enhancing system usability and stakeholder satisfaction.

### Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

*Jun 2016 - Dec 2018 | Tempe, Arizona, United States*

- Provided IT support and troubleshooting services to over 200 faculty and staff, improving issue resolution times by 25%.
- Collaborated on Agile-driven technology improvement initiatives, increasing user satisfaction and operational efficiencies.

### EY | *Risk Advisory Intern*

*Jun 2018 - Aug 2018 | Greater Phoenix Area*

- Performed technology risk assessments for Fortune 500 clients, identifying gaps and recommending controls for IT processes.
- Tested over 20 IT controls independently, ensuring compliance with internal policies and standards.
- Engaged with senior staff to enhance risk management frameworks and reporting accuracy.

## CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder Certification
- Salesforce Certified Administrator (SCA)
- Salesforce Certified Platform Developer I

## EDUCATION

**W. P. Carey School of Business - Arizona State University** 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
