Triet Le

Senior Salesforce Engineer | Salesforce Platform Developer

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

SUMMARY

Senior Salesforce Engineer with 7+ years of hands-on experience architecting, developing, and supporting scalable Salesforce solutions. Proven expertise in Apex, Lightning Web Components (LWC), automation with Flows, Salesforce integration using REST/SOAP APIs, and security model design. Skilled in driving cross-functional collaboration with Product, Marketing, Operations, and Data teams to deliver reliable, maintainable CRM platforms. Experienced in managing complex data migrations, CI/CD pipelines, and reducing technical debt while enhancing platform scalability and reliability. Passionate about leveraging AI-powered tools and emerging technologies to improve developer productivity and customer outcomes.

SKILLS

Salesforce Development: Apex, Lightning Web Components (LWC), Aura Components, Visualforce, Asynchronous Apex (Queueable, Batch Apex), Apex REST Services, SOQL, SOSL, JavaScript, HTML, CSS

Salesforce Automation & Configuration: Flow Builder (Record-Triggered, Screen, Scheduled), Workflow Rules, Validation Rules, Approval Processes, Process Builder, Custom Objects, Page Layouts, Record Types, Security Model Design (Profiles, Permission Sets, Sharing Rules, Field-Level Security)

Salesforce Integration & APIs: REST API, SOAP API, Apex Callouts, Named Credentials, OAuth 2.0, Platform Events, Event-Driven Architecture, Change Data Capture, Middleware Integration, JSON, XML

DevOps & Tooling: Salesforce DX, Git, CI/CD Pipelines, Automated Testing, Release Management, Deployment Automation

Data Management & Migration: Data Loader, ETL Processes, Data Cleansing, Duplicate Management, Data Quality Assurance, Bulk API

AI & Emerging Technologies: Salesforce Agentforce, Einstein AI, AI-powered coding assistants, Knowledge-grounded AI workflows

Collaboration & Agile: Jira, Confluence, Cross-functional Teamwork, Technical Documentation, Code Reviews, Agile Methodologies

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Engineer*

Dec 2024 - Present | Seattle, Washington, United States

- Engineered Lightning Web Components and OmniStudio solutions including OmniScripts, FlexCards, and DataRaptors to streamline customer service workflows, improving case resolution speed by 15%.
- Developed bulk-safe Apex classes, triggers, and queueable batch processes handling over 250,000 records monthly, reducing automation failures by 20%.
- Architected and maintained API-driven integrations between Salesforce and external SaaS platforms utilizing REST APIs, Named Credentials, and OAuth 2.0 for secure, scalable data exchange.
- Designed and implemented a robust flow automation architecture to replace legacy processes, boosting maintainability and reducing workflow errors by 25%.
- Led security model enhancements using permission sets, sharing rules, and field-level security, decreasing access-related support tickets by 15% across users.

- Integrated AI-powered Salesforce Agentforce features to enhance sales and service workflows, validating case-routing logic and improving AI-driven actions accuracy by 18%.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Configured and optimized Sales and Service Cloud features with flows, validation rules, and dashboards, improving data quality and sales process consistency for 500+ users.
- Developed and maintained Lightning Web Components and Apex controllers to enhance user experience and operational efficiency within the CRM platform.
- Implemented Salesforce integrations using REST/SOAP APIs and asynchronous patterns that supported high-volume healthcare payer workflows with strict HIPAA compliance.
- Deployed Experience Cloud portals to reduce email support volume by 20% through self-service features, file uploads, and case visibility.
- Built and managed multichannel engagement workflows with Groove and routing mechanisms with Chili Piper, increasing qualified meeting bookings by 10%.
- Collaborated with cross-functional teams to implement Agentforce case triage POC, improving case routing precision and reducing manual handling by 30%.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed Apex REST services and designed event-driven integrations utilizing Platform Events and Change Data Capture to decouple systems and enhance scalability.
- Built reusable FlexCards with role-based visibility to improve Lightning and Experience Cloud page UI responsiveness and customer data accessibility.
- Provided technical leadership for Salesforce integration feasibility, MuleSoft API patterns, and data migration strategies supporting enterprise billing applications.
- Participated in Agile delivery cycles including backlog refinement, code reviews, automated testing, and deployment for multiple Salesforce release waves.
- Supported the Salesloft–Salesforce integration for 65 users by ensuring data synchronization and resolving email/call logging exceptions.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Delivered Salesforce healthcare payer CRM solutions supporting member services and case management with HIPAA-aligned security models and workflow automation.
- Developed Apex triggers, Visualforce pages, and Lightning Components supporting healthcare operations with over 6,000 validated Lead and Contact records.
- Reduced proposal generation times by 38% through maintaining PandaDoc templates and Salesforce merge-field mappings for opportunity documentation.
- Performed comprehensive data quality initiatives including duplicate cleanup and field-level validation, improving data accuracy by 25%.
- Documented deployment processes and security changes for audit readiness in regulated healthcare environments.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technology support and troubleshooting services, collaborating with senior staff to implement Agile-driven enterprise solutions.
- Delivered concierge IT support to over 200 faculty and staff members, improving service response and problem resolution time.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Executed IT risk and control assessments for Fortune 500 clients, identifying key deficiencies and recommending mitigating controls.
- Collaborated with senior auditors to test 20+ IT controls, providing detailed documentation and evidence for audit completion.
