Triet Le

Senior Salesforce Developer | Salesforce Platform Engineer

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

SUMMARY

Senior Salesforce Developer with 7+ years of experience designing and delivering scalable Salesforce solutions across Sales Cloud, Service Cloud, Experience Cloud, CPQ, and Billing. Proven ability to build maintainable Apex code and complex Lightning Web Components while strategically applying declarative tools like Flows and validation rules. Skilled in producing technical designs, managing deployments via Gearset, debugging platform issues, and enhancing Salesforce platform quality, including early adoption of AI-assisted development tools. Adept at collaborating within distributed teams and driving initiatives that balance speed, pragmatism, and codebase health.

SKILLS

Salesforce Development: Apex, Lightning Web Components (LWC), SOQL, SOSL, Salesforce Flow, Validation Rules, Apex REST Services, Batch Apex, Queueable Apex, Schedulable Apex, Invocable Apex

Salesforce Clouds & Packages: Sales Cloud, Service Cloud, Experience Cloud, Salesforce CPQ, Salesforce Billing, Salesforce OmniStudio

Deployment & DevOps: Gearset, Sandbox Administration, CI/CD Pipelines, Metadata API

Solution Design & Technical Documentation: Solution Architecture, Technical Specs, Prototype Development, Spike Testing

Debugging & Testing: Salesforce Platform Debugging, Root Cause Analysis, Governor Limits Management, Automated Testing, Test Coverage, Playwright (exposure)

Integration & APIs: REST API, SOAP API, Named Credentials, OAuth 2.0, Platform Events, Event-Driven Architecture

AI-Assisted Development: Claude AI (or comparable tools), Agentforce, Einstein AI Integration, AI-driven Testing and Design

Security & Governance: Permission Sets, Sharing Rules, CRUD/FLS Enforcement, Role Hierarchy, Security Reviews

Collaboration Tools & Agile: Jira, Confluence, VS Code, Salesforce CLI

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Led the development of Apex and Lightning Web Components solutions supporting guided customer workflows using Salesforce OmniStudio, contributing to a 20% reduction in automation failures by implementing bulk-safe, governor-limit-aware designs processing over 250,000 records monthly.
- Developed and maintained Salesforce CPQ and Billing customizations, optimizing rule execution and minimizing transaction errors through precise handling of managed package constraints.
- Owned deployment pipelines using Gearset across multiple Salesforce orgs, enforcing environment promotion discipline and boosting deployment success rate by 30%.
- Authored comprehensive solution designs and technical documentation for platform changes, enabling asynchronous team collaboration and clearer architecture standardization.

- Troubleshot complex platform issues including governor limits breaches, Flow recursion, and asynchronous transaction errors, reducing production incidents by 15%.
- Pioneered integration of Salesforce with AI platforms including Agentforce and Einstein, structuring CRM data to support AI-assisted case routing and response accuracy, improving case resolution efficiency.
- Coordinated Gong and Revenue.io integrations to automate sales activity capture, which enhanced sales coaching metrics and deal-risk alerting.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Implemented and optimized Sales Cloud and Service Cloud solutions with a focus on declarative automation (Flows, validation rules) and Apex to improve sales pipeline accuracy and case management processes.
- Built Experience Cloud portals enabling self-service case status and secure document uploads, reducing email support inquiries by approximately 20%.
- Engineered Salesforce CPQ and Billing configurations and integrated third-party scheduling and forecasting tools, increasing qualified meeting bookings by 10% and streamlining forecasting processes.
- Developed and documented Salesforce deployment strategies using Gearset adhering to CoE best practices, ensuring high-quality releases with robust rollback plans.
- Executed technical spikes to validate complex billing and healthcare data workflows, mitigating risks prior to full development phases.
- Led platform debugging and root cause analysis for integration and asynchronous process issues, maintaining system uptime and SLA adherence.
- Championed adoption of AI development tools like Claude to improve build and testing efficiency while balancing associated risks.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed Apex REST services and event-driven integration patterns leveraging Platform Events and Change Data Capture for decoupled Salesforce integrations.
- Created Lightning FlexCards and Experience Cloud components with role-based visibility to enhance user experiences.
- Collaborated on technical design of billing microservices and API integrations, authoring clear documentation fostering cross-team understanding and support.
- Supported Salesforce administration including user access, workflow optimization, and security reviews to guarantee compliance with enterprise standards.
- Managed Salesloft integration for 65 sales users, streamlining cadence management and reducing synchronization exceptions by 25%.
- Participated actively in Agile processes including backlog refinement, peer code reviews, automated testing, and deployment validation.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Developed healthcare payer Salesforce CRM solutions emphasizing HIPAA compliance, case management workflows, and secure data access.
- Designed and maintained Apex triggers, Visualforce pages, Lightning Components, and declarative automations contributing to a 30% improvement in case resolution time.

- Conducted data quality initiatives including deduplication and enrichment of 6,000+ Lead and Contact records with ZoomInfo enhancements.
- Optimized PandaDoc proposal templates within Salesforce, reducing document preparation time from 40 to 25 minutes.
- Produced detailed technical and security documentation supporting audit readiness in a regulated healthcare environment.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided end-user support and troubleshooting services for over 200 faculty and staff, resolving technical issues with strong customer satisfaction.
- Collaborated on Agile-based IT solutions to enhance enterprise technology services and remove security threats.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Reviewed internal controls and identified technology risks for Fortune 500 clients, contributing to risk mitigation strategies.
- Tested and documented IT processes, supporting senior staff with audit procedures and independent re-performance testing.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator (SCA)
- Salesforce Certified Platform Developer I

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
