Integration & APIs: REST API, SOAP API, Apex Callouts, Named Credentials, OAuth 2.0, JSON, XML, Platform Events, Event-Driven Architecture

Security & Data Governance: CRUD/FLS Enforcement, Security Reviews, Data Quality Management, Deduplication, Compliance Controls

Reporting & Analytics: Custom Reports, Dashboards, KPI Dashboards, Operational Reporting

Tools & Programming: JavaScript, HTML5, CSS3, VS Code, Postman, Jira, Salesforce Inspector

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer & Administrator*

Dec 2024 - Present | Seattle, Washington, United States

- Designed and deployed scalable Lightning Web Components and Apex classes with 85% test coverage, reducing automation errors by 20%.
- Led Salesforce user access governance by managing profiles, permission sets, and sharing models, decreasing support tickets related to access issues by 15%.
- Engineered REST API integrations with external SaaS platforms and internal tools, improving data flow reliability and cutting sync failures by 25%.
- Migrated legacy Process Builder automations to Flow Builder and Apex invocable actions, increasing maintainability and reducing errors by 30%.
- Monitored and optimized Salesforce org performance, conducting regular audits on security, data quality, and sandbox refresh strategy.

- Collaborated with product, revenue operations, and finance teams to align Salesforce solutions with business goals and user requirements.
- Championed Salesforce AI pilot initiatives integrating Agentforce, enhancing case routing accuracy and boosting agent productivity.
- Coordinated code reviews, sprint planning, and release activities within Agile teams to ensure stable and timely deployments.

Amazon Web Services (AWS) | *Senior Salesforce Developer & Administrator*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Developed Lightning Web Components and configured Sales Cloud automations managing 1,500+ leads per month, increasing qualified meetings booked by 10%.
- Managed Salesforce security model including profiles, roles, permission sets, and sharing rules for over 500 users across Sales and Customer Success teams.
- Built and maintained REST API integrations with enterprise financial and customer platforms such as NetSuite and DocuSign, streamlining contract workflows.
- Implemented Copado-based CI/CD pipelines coordinating multiple sandbox environments, reducing deployment times by 40%.
- Created and maintained reports and dashboards that informed leadership decision-making and improved CRM data visibility.
- Delivered end-user training and documentation, increasing Salesforce adoption and reducing support tickets by 18%.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Created Apex REST services and built complex integrations using SOAP/REST APIs to connect Salesforce with billing and support systems.
- Developed Platform Event-driven integrations that decoupled downstream system dependencies, improving system resilience and asynchronous processing throughput by 15%.
- Supported Agile development cycles including backlog grooming, technical design, UAT,and release management.
- Enhanced Salesloft–Salesforce integration for 65 sales users, ensuring seamless cadence enrollment and data synchronization.
- Performed Salesforce administration tasks including data validation, duplicate management, and security settings updates.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Implemented healthcare payer Salesforce CRM solutions with custom Apex, Lightning Components, validation rules, and security configurations supporting HIPAA compliance.
- Improved data quality by cleansing and enriching over 6,000 Salesforce Lead and Contact records with ZoomInfo and implemented duplicate prevention strategies.
- Reduced proposal preparation times by 38% through maintaining PandaDoc integration templates and Salesforce merge fields.
- Developed reports and dashboards tracking key healthcare service metrics for operational teams.
- Documented Salesforce configuration changes and deployment processes ensuring regulatory audit readiness.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support and troubleshooting to over 200 faculty and staff, enhancing IT service responsiveness.
- Collaborated with senior tech teams to implement Agile-based solutions addressing enterprise system challenges.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Evaluated technology risks and security controls for Fortune 500 clients, identifying critical gaps through audits and testing of 20+ IT processes.
- Partnered with senior staff to deliver actionable risk mitigation recommendations.
