Triet Le

Senior Salesforce Developer | Salesforce Platform Engineer

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

SUMMARY

Senior Salesforce Developer with 7+ years of extensive experience designing, developing, and architecting scalable Salesforce solutions including Apex, Lightning Web Components, and Salesforce Flows. Proven track record leading integrations with enterprise systems using REST/SOAP APIs, MuleSoft, and event-driven architectures. Adept at defining governance policies, security best practices, and implementing CI/CD pipelines leveraging Gearset and Salesforce DX. Skilled mentor and collaborator known for delivering high-quality, scalable Salesforce platforms within Agile environments, focused on DevOps and automation to enhance user experience and operational efficiency.

SKILLS

Salesforce Development & Architecture: Apex, Lightning Web Components (LWC), Salesforce Flows, Visualforce, Aura Components, Salesforce OmniStudio, Apex REST Services, Batch Apex, Queueable Apex, Platform Events, Event-Driven Architecture

Integration & APIs: REST API, SOAP API, MuleSoft, Named Credentials, OAuth 2.0, JSON, XML, Salesforce Web Services, ETL Tools, Bulk API, Composite API

DevOps & Deployment: CI/CD (Gearset, Copado), Salesforce DX, Jenkins, GitHub Actions, Automated Testing Frameworks, Release Management, Sandbox Management

Cloud Platforms & Infrastructure: AWS, Azure, Google Cloud Platform (GCP), Cloud Security and Governance in Salesforce

Salesforce Security & Governance: Permission Sets, Profiles, Roles & Role Hierarchies, Sharing Rules, CRUD/FLS Enforcement, Security Reviews, Governance Policies

User Interface & Experience: Salesforce Lightning Experience, Salesforce UI Design Best Practices, Experience Cloud, Guided Customer Workflows

Programming Languages & Tools: JavaScript, HTML5, CSS3, Java, C#, Python, SQL, VS Code, Developer Console, Postman, Jira, Confluence

Project Methodologies & Leadership: Agile, Scrum, Mentoring, Technical Coaching, Code Review, Architecture Design, Strategic Planning, Collaboration with GovTech Stakeholders

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Architected and developed scalable Salesforce solutions using Lightning Web Components and OmniStudio, improving customer workflow efficiency by 18%.
- Led API-driven Salesforce integrations with internal and external systems using REST APIs, OAuth 2.0, and event-driven platforms, enhancing data synchronization fidelity by 25%.
- Implemented advanced Apex asynchronous processes including Batch and Queueable Apex to handle over 250,000 monthly transactions, reducing automation failure rates by 20%.
- Defined and enforced Salesforce security model governance across profiles, permission sets, and sharing rules, resulting in a 15% decrease in user access support requests.

- Pioneered adoption of Salesforce AI technologies (Agentforce and Einstein) to enhance customer case management and service workflows, validating production readiness through comprehensive testing.
- Established CI/CD pipeline improvements with Gearset to streamline release deployments, reducing release cycle time by 22%.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Designed and developed Lightning Web Components and Salesforce Flows improving sales-process consistency, boosting qualified meeting bookings by nearly 10%.
- Integrated Salesforce with cloud-hosted services and enterprise applications via REST APIs, Apex callouts, and asynchronous messaging, ensuring secure and reliable data flows.
- Configured and maintained Salesforce security policies and sharing models across enterprise users, enhancing compliance with HIPAA and internal governance standards.
- Implemented Experience Cloud features for external users, reducing support case email follow-ups by approximately 20%.
- Drove Salesforce dashboard and report automation to deliver actionable sales and operational insights, improving data-driven decisions across teams.
- Led Agile team technical design reviews to optimize Salesforce solutions for scalability, governor limits, and integration resiliency.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed and maintained Apex REST APIs and orchestrated event-driven architectures using Platform Events and Change Data Capture to decouple Salesforce integrations.
- Collaborated cross-functionally to translate complex billing and CRM requirements into scalable Salesforce microservices and documented technical designs for implementation teams.
- Supported CI/CD processes to automate testing and deployment workflows, increasing release reliability and reducing manual errors.
- Enhanced Salesforce security and access controls supporting user provisioning, data validation, and issue resolution in production environments.
- Maintained integration of Salesloft with Salesforce for 65 users, improving sales cadence accuracy and email/call logging completeness.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Developed Apex triggers, Visualforce pages, and Lightning Components supporting healthcare payer CRM business processes, enhancing case management throughput by 12%.
- Managed Salesforce security configurations tailored to HIPAA requirements, ensuring robust field-level and record-level data protections.
- Improved data quality by validating and cleansing over 6,000 Salesforce Lead and Contact records, reducing duplicates by 30%.
- Automated document generation using PandaDoc templates integrated with Salesforce, cutting proposal preparation time by over 37%.
- Documented deployment procedures and change management artifacts to strengthen audit readiness within regulated healthcare environments.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support and troubleshooting for over 200 users, improving issue resolution times by 25%.
- Collaborated in Agile teams to deploy technological solutions enhancing business operations for the school's faculties and staff.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Conducted risk assessments on IT processes for Fortune 500 clients, identifying critical risks and recommending mitigations.
- Enhanced IT audit quality by independently testing over 20 processes and documenting comprehensive walkthroughs and controls.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator
- Salesforce Certified Platform Developer I

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
