Process Automation: Flow Builder (Screen, Record-Triggered, Scheduled Flows), Workflow Rules, Process Builder, Approval Processes, Apex Triggers, Batch & Queueable Apex

Incident Management & Monitoring: Incident Analysis, Root Cause Analysis, Salesforce Governor Limits Monitoring, Performance Analysis, Error Logging, Production Support, Salesforce Limits & Optimization

Deployment & DevOps: Salesforce DX, Change Sets, Metadata API, CI/CD pipelines, Automated Testing, Sandbox Management, Release Coordination, Deployment Validation

Security & Administration: Profiles, Permission Sets, Sharing Rules, Role Hierarchies, CRUD, FLS, Login Policies, User Access Reviews, Data Security Compliance

Integration & APIs: REST API, SOAP API, Apex Callouts, Named Credentials, OAuth 2.0, Platform Events, Event-Driven Architecture, MuleSoft Basics

Languages & Tools: JavaScript, HTML, CSS, JSON, XML, VS Code, Salesforce Inspector, Postman, Jira, Confluence

Soft Skills: Structured Problem Solving, Communication with Technical & Non-Technical Stakeholders, Cross-Functional Collaboration, Agile Methodologies

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Analyze and resolve Salesforce incidents by collaborating with cross-functional teams, reducing critical incidents by 18% through proactive root cause investigations and continuous monitoring.
- Develop, enhance, and optimize Salesforce solutions using OmniStudio components and Lightning Web Components, improving system performance and user experience.
- Lead deployment activities and execute thorough testing and documentation, achieving 100% deployment success rate and minimizing rollback incidents.
- Implement performance monitoring dashboards and alerts, identifying and mitigating potential Salesforce governor limits breaches before impacting users.

- Drive adoption of Salesforce AI capabilities including Agentforce and Einstein tools, enhancing case routing accuracy and customer service efficiency.
- Manage Salesforce user security and permission models to enforce least-privilege principles, reducing security incidents by 15%.
- Design API integrations with third-party platforms supporting billing, analytics, and customer support, increasing data synchronization accuracy by over 20%.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Led incident prioritization and root cause analysis process for Salesforce Sales and Service Clouds, resolving over 30 critical support tickets with sustainable solutions.
- Developed and enhanced Service Cloud workflows, approval processes, and Lightning components to streamline sales and support operations, improving productivity by 12%.
- Engineered Experience Cloud self-service portals, reducing customer email inquiries by approximately 20% via enhanced case visibility and knowledge access.
- Conducted proactive monitoring of Salesforce limits, ensuring compliance and system stability during peak transaction periods handling 5,000+ daily transactions.
- Built and managed Salesforce deployments using CI/CD tools, improving release cycle efficiency and reducing deployment-related issues by 25%.
- Implemented Agentforce-based case triage proof of concept, improving response times and escalation accuracy in customer service processes.
- Collaborated with third-party vendors on multi-channel engagement integrations, increasing automated activity capture and sales engagement by 18%.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Designed and developed Apex REST services and event-driven integrations to decouple Salesforce from downstream systems, enhancing reliability and scalability.
- Worked closely with architects and business analysts to translate complex requirements into scalable Salesforce solutions, ensuring alignment with governance and performance standards.
- Supported incident resolution and system maintenance activities, reducing average issue resolution time by 15% through monitoring and workflow optimization.
- Developed FlexCards and Lightning pages enhancing user experience in cases and customer data management, positively impacting service team efficiency.
- Participated in sprint planning and peer reviews, ensuring quality and adherence to Salesforce best practices.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Supported healthcare Salesforce implementations with focus on HIPAA compliance, ensuring data security and regulatory standards in CRM workflows and access controls.
- Conducted regular data quality reviews and user access audits for over 6,000 Lead and Contact records, improving data accuracy by 22%.
- Developed Apex triggers, Visualforce pages, and Lightning components aligned with healthcare business processes, enhancing case management and member service workflows.
- Reduced insurance proposal document preparation times by 37% by maintaining and optimizing PandaDoc templates integrated within Salesforce.

- Documented technical designs, test cases, and deployment instructions, strengthening change management and audit readiness.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technology support services to over 200 faculty and staff, troubleshooting a variety of hardware, software, and network issues.
- Collaborated with senior technicians to develop Agile solutions improving overall IT service delivery efficiency.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Performed internal control reviews and IT risk assessments for Fortune 500 clients, identifying control gaps and recommending mitigations.
- Executed detailed walkthroughs and re-performance tests, supporting audit teams in delivering comprehensive risk advisory reports.
