Triet Le

Senior Salesforce CPQ Developer | Salesforce Platform Engineer

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

SUMMARY

Senior Salesforce Developer with 7+ years of expertise in Salesforce platform development, specializing in Salesforce CPQ configuration, Apex coding, complex pricing logic, quoting flows, and integrations. Proven experience designing scalable CPQ solutions, delivering end-to-end implementations, and supporting post-release environments. Adept at translating business processes into automated workflows using Apex, Flows, and SOQL, improving system reliability and user adoption in high-complexity enterprises.

SKILLS

Salesforce CPQ & Configuration: Configure CPQ pricing logic, product bundles, quote templates, workflows, approvals, and storefront workflows; Salesforce CPQ Pricing & Quoting; Approvals Management; Product and Price Rule Automation

Salesforce Development: Apex Classes, Apex Triggers, Apex REST Services, Batch Apex, Queueable Apex, SOQL, SOSL, Lightning Web Components (LWC), Visualforce, Apex Integration Patterns, Asynchronous Apex, Governor Limits Optimization

Salesforce Automation & Flows: Flow Builder (Record-Triggered, Screen, Scheduled, Invocable Apex), Workflow Rules, Process Builder, Approval Processes, Declarative Process Automation aligned with CPQ workflows

Salesforce Integration & APIs: REST API, SOAP API, Named Credentials, OAuth 2.0, JSON, Platform Events, Event-Driven Architecture, MuleSoft Integration, External System Integrations, Change Data Capture

Salesforce Security & Release Management: Profiles, Permission Sets, Roles and Sharing Rules, CRUD/FLS Enforcement, Release Coordination, Sandbox Management, Code Reviews, Security Best Practices

Agile & DevOps: Agile Scrum, Continuous Integration and Deployment (CI/CD), Jira, Confluence, Testing and UAT, Release Lifecycle Management, Post-Release Support and On-Call Rotation

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce CPQ Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Designed and implemented scalable Salesforce CPQ workflows including pricing rules, approval chains, and quoting flows, improving quote generation efficiency by 25%.
- Developed complex Apex classes and triggers supporting CPQ business logic and storefront processes, reducing error rates in quote calculations by 20%.
- Collaborated with product and QA teams to translate CPQ requirements into technical designs, leading all phases from implementation through post-release support with 98% uptime.
- Optimized and bulkified Apex and SOQL queries handling over 250,000 monthly CPQ records to ensure adherence to governor limits and system reliability.
- Automated billing integrations via REST API and Apex callouts, enhancing data sync accuracy by 15% and reducing manual reconciliation effort.
- Troubleshot and resolved CPQ-specific production issues, decreasing incident response time by 30% through proactive monitoring and root-cause analysis.

- Led adoption of Salesforce Flow automation to complement CPQ processes, replacing 40% of prior Workflow Rules and Process Builder automations for maintainability and performance.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Configured Salesforce CPQ product and pricing rules, quote templates, and storefront workflows aligned with dynamic market needs.
- Delivered Apex-driven backend logic and Lightning Web Components enhancing quoting and approval user experiences, improving quote accuracy and speed by 18%.
- Managed Salesforce security and access policies for CPQ users, employing permission sets and roles that decreased access-related support tickets by 15%.
- Integrated CPQ with external billing and ERP systems via REST APIs, Named Credentials, and OAuth 2.0, achieving seamless data flow with minimal errors.
- Developed and maintained complex Flows and Approval Processes supporting multi-step CPQ quote approval workflows, facilitating a 22% acceleration in approval cycles.
- Coordinated release management activities including sandbox testing, deployment, and documentation facilitating zero critical post-release defects.
- Supported Agile delivery teams with backlog grooming, technical design, and sprint planning focused on CPQ enhancements and technical debt reduction.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Built Apex REST services and integrations supporting CPQ and billing data synchronization using REST and SOAP APIs, improving integration reliability by 20%.
- Introduced event-driven architecture for Salesforce CPQ using Platform Events and Change Data Capture, reducing system coupling and improving scalability.
- Collaborated cross-functionally to translate complex pricing and quoting requirements into modular Apex and Flow automation, speeding development cycles by 15%.
- Maintained and enhanced Salesforce CPQ quoting flows and approvals, removing bottlenecks and improving user satisfaction scores by 10%.
- Contributed to testing and deployment processes ensuring compliance with Salesforce platform best practices and governor limits.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Executed Salesforce CPQ implementations for healthcare clients combining Apex development, quoting workflows, and pricing model configuration under HIPAA compliance.
- Built and maintained Apex triggers, classes, validation rules, and workflow automations for CRM and CPQ features to support member and service management workflows.
- Enriched and cleansed 6,000+ Lead and Contact records to improve CPQ data accuracy, reducing quoting errors by 12%.
- Developed and optimized proposal generation templates integrating Salesforce CPQ with PandaDoc, cutting document preparation time by 40%.
- Provided post-production support and troubleshooting for CPQ quoting and approval functionalities, ensuring compliance with security and process standards.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided comprehensive technical support and troubleshooting, improving issue resolution times by 15% through proactive user training and documentation.
- Collaborated with senior tech specialists in Agile teams to deliver enterprise-wide IT solutions supporting faculty and staff.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed IT risks across technology processes for Fortune 500 clients, identifying critical controls and recommending improvements.
- Tested and re-performed over 20 key IT processes to ensure compliance and risk mitigation, demonstrating strong analytical and attention to detail skills.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator (SCA)
- Salesforce Certified Platform Developer I

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
