PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Led design and development of complex Lightning Web Components and Salesforce OmniStudio solutions to improve guided customer workflows and service automation, increasing process efficiency by 25%.
- Developed robust Apex code adhering to governor limits to process over 250,000 records monthly, reducing automation failures by 20% through optimized bulk processing and error handling.
- Executed integrations between Salesforce and external SaaS platforms using OAuth 2.0 and REST APIs enabling seamless data flow for billing, support, and analytics systems.
- Engineered scalable, least-privilege access models, lowering access-related support tickets by more than 15% across internal and external userbases.

- Drove implementation of AI use cases including Agentforce integration and validation, significantly enhancing case routing accuracy and reducing manual intervention.
- Led Gong and Revenue.io integrations capturing communication data and automating activity records, which increased sales coaching insights and deal risk awareness.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Architected and delivered Sales Cloud and Service Cloud enhancements including Lightning components and flows that improved CRM data quality and sales process consistency by 15%.
- Developed and maintained Agentforce case-triage proof of concept featuring automated actions and escalation logic, boosting customer service efficiency by 18%.
- Configured multi-channel engagement workflows using Groove and Chili Piper, increasing qualified lead meetings by 10% through optimized routing and scheduling.
- Implemented integrations using REST APIs and Named Credentials connecting Salesforce with enterprise applications such as Aviso and Xactly, supporting forecasting and compensation processes.
- Collaborated on agile sprints delivering scalable Salesforce solutions with secure data access aligned to HIPAA compliance in healthcare payer environments.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed Apex REST APIs and event-driven integrations using Platform Events and Change Data Capture, enhancing decoupled communication between Salesforce and backend systems.
- Built Lightning components including FlexCards with role-based visibility to improve user experience within Lightning and Experience Cloud portals.
- Provided technical guidance during pre-sales and architecture discussions ensuring scalable, maintainable Salesforce solutions that met complex billing requirements.
- Supported Salesforce administration and security reviews ensuring compliance with enterprise standards and data governance.
- Managed Salesloft integration for 65 sales reps, improving synchronization accuracy and call/email activity logging.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Delivered healthcare payer Salesforce CRM solutions with case management automation and HIPAA-aligned security policies improving member service efficiency by 22%.
- Developed Visualforce and Lightning Components, Apex triggers, and workflow automation supporting critical healthcare processes and achieving 98% SLA adherence.
- Performed data quality management on over 6,000 Lead and Contact records using third-party enrichment tools, reducing duplicates and enhancing data accuracy by 30%.
- Streamlined document generation by maintaining 18 PandaDoc templates, decreasing proposal preparation time by over 37%.
- Documented configuration changes, security updates, and release processes, strengthening audit readiness and compliance posture.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided tech support and troubleshooting for over 200 faculty and staff, contributing to consistent uptime and technology adoption.
- Collaborated with senior IT staff to deliver agile solutions addressing enterprise technology challenges.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed IT risk and compliance for Fortune 500 clients, identifying gaps and assisting with remediation plans improving control effectiveness.
- Tested 20+ IT processes demonstrating thorough analysis and attention to detail in documentation and walkthroughs.
