PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Administrator & Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Administer Salesforce user access and security models through management of profiles, permission sets, roles, sharing rules, and field-level security, reducing access-related support tickets by over 15%.
- Designed and implemented complex automation using Flow Builder and Apex to streamline service and sales processes, improving process efficiency by approximately 25%.
- Built and optimized reports and dashboards that monitor KPIs related to user adoption, business processes, and automation impacts, enhancing executive visibility and decision-making.
- Managed API-driven integrations between Salesforce and external SaaS platforms using REST APIs, Named Credentials, OAuth 2.0, and event-driven patterns to maintain data consistency and system interoperability.
- Led data quality initiatives involving duplicate detection, cleansing, and validation rule enhancements, improving data accuracy by over 30% across key Salesforce objects.

- Authored technical specifications and documentation for system changes, integrations, and automations to ensure maintainability and knowledge transfer.
- Provided training, coaching, and technical support to end users and project stakeholders, driving adoption and reducing user-reported errors.

Amazon Web Services (AWS) | *Senior Salesforce Administrator & Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Managed Sales Cloud and Service Cloud configurations including case management, queues, assignment/escalation rules, approval processes, and validation rules to enhance CRM efficiency and consistency.
- Built Experience Cloud portal features enabling secure self-service support and communications, reducing email follow-ups by 20%.
- Designed and supported complex Salesforce integrations using REST APIs, Apex callouts, Named Credentials, and OAuth authentication with external enterprise systems.
- Administered Salesforce security including user roles, profiles, permission sets, and sharing rules for 500+ enterprise users ensuring compliance with organizational policies.
- Developed and maintained Salesforce OmniStudio components (OmniScripts, FlexCards, DataRaptors) for guided workflows supporting healthcare use cases.
- Configured and delivered proof of concept for Agentforce case triage, improving routing accuracy and escalation controls.
- Optimized multichannel engagement workflows and lead routing (Chili Piper) increasing qualified-meeting bookings by nearly 10%, and enhanced forecasting with integrated dashboards.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed Apex REST services and implemented Salesforce integrations using REST/SOAP APIs, Bulk API, supporting multi-system data synchronization.
- Implemented event-driven integration patterns using Platform Events and Change Data Capture to decouple system interactions and improve reliability.
- Built Lightning FlexCards with conditional visibility to display customer and support case information, enhancing UX within Lightning and Experience Cloud.
- Collaborated on Salesforce technical design and solutioning, providing expertise on integration options, data migration strategy, and reusable component development.
- Supported Salesforce administration activities including workflow optimizations, user access requests, security reviews, and production issue resolution.
- Managed Salesloft–Salesforce integration for 65 sales users, ensuring reliable cadence enrollment and accurate activity logging.

Deloitte Consulting | *Salesforce Developer & Administrator*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Supported healthcare payer Salesforce CRM implementations focusing on member services, case management, automation, and HIPAA-compliant security.
- Conducted thorough user access reviews and data quality audits improving data integrity and compliance readiness.
- Developed and maintained Apex triggers, Visualforce pages, validation rules, workflow automation, and sharing settings to enhance operational workflows.

- Enriched and validated over 6,000 Lead and Contact records with third-party data, improving contact accuracy and reducing duplicates by 25%.
- Maintained PandaDoc templates and Salesforce merge-field mappings to reduce proposal document preparation time by over 35%.
- Documented technical changes and release processes supporting audit preparedness and regulatory compliance.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support and troubleshooting for over 200 faculty and staff, implementing fixes and removing security threats to ensure operational continuity.
- Collaborated with senior technicians to deliver Agile solutions improving enterprise technology stability.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Performed risk assessments and documentation reviews for Fortune 500 clients, identifying IT control weaknesses and recommending improvements.
- Tested over 20 IT processes through walkthroughs and re-performance, contributing to enhanced internal controls.
