PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Administrator & Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Administered Salesforce users, roles, profiles, permission sets, and sharing settings to enforce least-privilege access, reducing access-related support tickets by 15%.
- Designed and optimized Salesforce Flows replacing legacy automation, improving process efficiency and reducing manual tasks by 20%.
- Built and maintained reports and dashboards providing real-time visibility into sales pipeline and operational KPIs used by Sales, Marketing, and Operations teams.
- Managed data quality programs including duplicate management and validation rule enhancements, increasing data accuracy by 25%.
- Supported Sandbox deployments and tested Salesforce releases ensuring minimal impact on business operations.
- Collaborated with cross-functional teams to deliver training and develop user guides, improving user adoption and satisfaction.

Amazon Web Services (AWS) | *Senior Salesforce Administrator & Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Configured and supported Sales Cloud objects, validations, page layouts, and Lightning record pages to improve CRM usability for 600+ users.
- Built and troubleshot Salesforce Flows reducing manual data entry efforts by approximately 30%, contributing to sales process consistency.
- Developed and maintained complex dashboards and reports for leadership and operational teams to track sales performance and pipeline health.
- Managed Salesforce user permissions, licenses, and access controls aligning with enterprise security policies.
- Coordinated sandbox testing, user acceptance, and deployment of platform updates with minimal downtime and issue resolution.
- Led Salesforce training sessions and created onboarding documentation enhancing team competence and adoption.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed Apex classes, triggers, and REST services to integrate with external systems using secure OAuth 2.0 and Named Credentials.
- Implemented event-driven design patterns with Platform Events and Change Data Capture to decouple systems and improve scalability.
- Supported Salesforce administration by managing users, profiles, permission sets, and security settings in compliance with governance policies.
- Built FlexCards and Lightning pages supporting enhanced user experiences in Sales and Service Cloud applications.
- Automated workflows with record-triggered and screen Flows, boosting operational efficiency by 15%.
- Collaborated with stakeholders to gather requirements and translate them into scalable Salesforce solutions.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Managed Salesforce security configurations including profiles, permission sets, role hierarchies, and sharing rules for a healthcare payer organization.
- Developed validation rules, workflow rules, custom fields, and reports supporting case management and member services, enhancing data compliance.
- Performed data quality analysis and conducted duplicate cleanup for over 6,000 lead and contact records, improving CRM data hygiene.
- Automated proposal generation with 18 PandaDoc templates integrated with Salesforce, reducing document prep time by over 35%.
- Provided user support, including documentation and training, contributing to a 20% increase in user satisfaction scores.
- Demonstrated HIPAA-compliant Salesforce administration practices aligned with industry regulations.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support and troubleshooting for faculty and staff ensuring high availability of enterprise systems.

- Collaborated with senior technical staff in Agile environment to deliver timely IT solutions.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed technology risks and reviewed IT processes across Fortune 500 clients, identifying key controls and risks.
- Collaborated with senior staff to develop documentation supporting IT audit and compliance testing.
