Triet Le

Senior Salesforce Developer | Salesforce Platform Engineer

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

SUMMARY

Senior Salesforce Developer with over 7 years of expertise delivering scalable Salesforce and billing platform solutions. Skilled in Apex, Lightning Web Components, Flow, and Salesforce declarative automation, with strong focus on AI-driven development incorporating Einstein, Agentforce, and LLM-assisted workflows. Experienced in modernizing CI/CD pipelines and optimizing Quote-to-Cash processes to enhance revenue operations. Proven ability to collaborate cross-functionally with architecture, product, finance, and support teams to design innovative enterprise platforms that improve automation, data quality, and user experience.

SKILLS

Salesforce Development: Apex, Lightning Web Components (LWC), Salesforce Flow, Aura Components, Visualforce, Batch Apex, Queueable Apex, Platform Events, Async Apex

Salesforce Declarative Automation: Record-Triggered Flows, Screen Flows, Scheduled Flows, Subflows, Process Builder, Validation Rules, Approval Processes

AI-Driven Salesforce Tools: Einstein, Agentforce, LLM-Assisted Development, AI-assisted Code Reviews, Automated Test Coverage

Billing & Quote-to-Cash: Quote-to-Cash Process Automation, Subscription-Based Revenue Models, Billing Systems Integration, Salesforce CPQ, Integration Procedures, OmniStudio

Integration & APIs: REST API, SOAP API, Apex Callouts, Named Credentials, OAuth 2.0, JSON, Platform Events, Event-Driven Architectures

CI/CD & DevOps: Salesforce Release Management, Automated Testing, Deployment Automation, Continuous Integration, Version Control (Git), Code Quality Reviews

Programming & Tools: Python, JavaScript, HTML5, CSS3, Salesforce DX, VS Code, Postman, Jira, Confluence

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Designed and developed scalable Salesforce solutions leveraging Apex, Lightning Web Components, Flow, and OmniStudio components to support cloud storage billing and service workflows.
- Optimized automation processing over 250,000 monthly subscription records by developing bulk-safe Apex batch jobs and queueable classes, reducing failures by 20%.
- Pioneered AI-driven enhancements integrating Einstein and Agentforce capabilities to automate customer case triage, increasing first-contact resolution rates by 15%.
- Built and maintained complex reports and dashboards monitoring Quote-to-Cash KPIs, user adoption, and automation effectiveness, driving data-driven decision making.
- Led modernization of CI/CD workflows incorporating automated test coverage and AI-assisted code reviews, accelerating deployment velocity by 25%.
- Collaborated closely with finance and product teams to refine billing platform integrations, improving invoicing accuracy and reducing reconciliation issues by 18%.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Developed and maintained Salesforce CPQ and billing-related flows, Lightning Components, and Apex integrations supporting subscription revenue models.
- Implemented and validated Agentforce case triage workflows, improving automation response accuracy and reducing manual routing by 30%.
- Designed REST API integrations between Salesforce and external billing and monetization platforms using Named Credentials and OAuth to ensure secure data exchange.
- Configured and enhanced Salesforce dashboards tracking sales pipeline and billing KPIs, supporting operational efficiencies and revenue forecasting.
- Improved lead routing with Chili Piper integration, increasing qualified meeting bookings by nearly 10%.
- Collaborated with product, architecture, and QA teams on sprint planning, technical designs, and peer code reviews ensuring high-quality deliveries.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Implemented Apex REST services and event-driven Platform Events architectures to integrate Salesforce with billing and usage tracking microservices, improving data sync reliability by 22%.
- Built guided customer service flows using OmniScripts and FlexCards to streamline case management and billing inquiries.
- Supported CI/CD pipeline enhancements, including automating deployment validation and unit testing to increase release stability.
- Collaborated on technical designs translating Quote-to-Cash billing requirements into scalable Salesforce platform solutions.
- Managed Salesforce security models, including profiles, permission sets, and sharing rules to safeguard sensitive billing and customer data.
- Drove documentation of technical implementations to facilitate knowledge sharing and support future maintenance.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Delivered Salesforce healthcare payer CRM implementations focusing on case management automation, security, and compliance with HIPAA regulations.
- Developed Apex triggers, Visualforce pages, and Lightning Components enhancing data integrity and user workflows for over 6,000 records.
- Streamlined document generation by maintaining 18 PandaDoc templates with Salesforce merge fields, decreasing document prep time by 37%.
- Performed detailed data cleansing, duplicate checks, and quality improvements to support reliable case and billing information.
- Documented security configurations, test results, and deployment activities to ensure regulatory compliance and audit readiness.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided dedicated IT support delivering solutions and troubleshooting for 200+ faculty and staff members, enhancing operational uptime.

- Collaborated with senior teams to design Agile improvements and implemented preventative security controls.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed IT risks and controls across Fortune 500 companies, identifying key security and process improvement areas.
- Tested over 20 IT processes for operational effectiveness, contributing to high-quality risk advisory reports.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder Certification
- Salesforce Certified Administrator (SCA)
- Salesforce Certified Platform Developer I

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
