Salesforce Security & Administration: Profiles, Permission Sets, Sharing Rules, Field-Level Security, Role Hierarchies, User Access Reviews, Permission Modeling

Salesforce Integration & APIs: REST API, SOAP API, Named Credentials, OAuth 2.0, Platform Events, Event-Driven Integration Patterns

Business Process Automation & Documentation: Business Process Analysis, Workflow Documentation, Salesforce Best Practices, Agile Delivery

AI & Next-Gen Salesforce Features: Agentforce, Einstein, AI-Assisted Workflows, Guided Customer Workflows

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Delivered enterprise Salesforce automation and guided workflows with Lightning Web Components and OmniStudio, boosting user efficiency by 25%.
- Engineered scalable Apex solutions processing 250,000+ records monthly, reducing automation failures by nearly 20% through bulk-safe programming.
- Developed and maintained Salesforce reports and dashboards enabling leadership to track KPIs and automation impact, increasing visibility by 40%.
- Governed CRM data quality improvements with duplicate analysis, cleansing, and validation rules enhancing data accuracy by 30%.
- Led API-driven Salesforce integrations combining SaaS platforms and internal engineering tools for real-time data synchronization.

- Implemented comprehensive Salesforce security models using permission sets and sharing rules, cutting support tickets related to access issues by 15%.
- Structured CRM data and workflows to support AI-powered features like Agentforce and Einstein, validating production readiness with detailed scenario testing.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Configured and optimized Sales Cloud components to unify Lead, Account, Contact, and Opportunity management, improving sales data quality by 20%.
- Automated Salesforce workflows using Flow Builder and Apex, reducing manual sales operations by 35%.
- Created tailored Salesforce dashboards and reports for sales and service teams, increasing reporting accuracy and reducing manual data requests by 25%.
- Managed CRM data integrity including member-service workflows and HIPAA-compliant data access controls for healthcare payer solutions.
- Implemented Experience Cloud features to enable secure, self-service portals, decreasing support email volume by 20%.
- Orchestrated integrations using Named Credentials, OAuth 2.0, and REST APIs for seamless connectivity across cloud and enterprise systems.
- Developed Agentforce case triage Proof of Concept automating case routing using AI-driven topics and escalation, enhancing case management response times.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed RESTful Apex services and implemented event-driven integration using Platform Events to decouple Salesforce workflows from external systems.
- Built dynamic FlexCards and Lightning pages enhancing the visibility of customer and case data for sales and service users.
- Supported sales operations by integrating Salesloft cadences with Salesforce, improving user activity capture and reducing sync errors by 30%.
- Collaborated closely with architects and stakeholders to translate complex billing and sales requirements into robust Salesforce solutions.
- Provided ongoing Salesforce administration support including security configurations, data validation, and workflow enhancements.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Supported HIPAA-compliant healthcare payer Salesforce CRM implementations with emphasis on workflow automation and secure data management.
- Maintained Salesforce data hygiene by validating and enriching over 6,000 Lead and Contact records, improving contact accuracy by 22%.
- Optimized document generation by maintaining 18 PandaDoc templates, shortening average proposal preparation times from 40 to 25 minutes.
- Built Apex triggers, Visualforce pages, and workflow rules to automate healthcare member service processes, increasing case resolution speed by 15%.
- Documented security model changes and release procedures ensuring compliance and traceability within regulated environments.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support and troubleshooting services to 200+ faculty and staff, maintaining speedy resolution rates and strong user satisfaction.
- Collaborated on Agile team initiatives to develop and implement scalable technology solutions across departments.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Reviewed IT and technology risk documentation for Fortune 500 clients, ensuring regulatory compliance and operational integrity.
- Identified deficiencies and risks through detailed testing of 20+ IT processes, supporting senior staff with risk mitigation recommendations.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator (SCA)
- Salesforce Certified Platform Developer I

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
