Triet Le

Senior Salesforce Platform Engineer

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

SUMMARY

Senior Salesforce Platform Engineer with over 7 years of deep expertise in designing, architecting, and developing scalable, secure, and high-performing Salesforce solutions. Adept at leading complex Salesforce implementations, integrating platforms via REST and GraphQL APIs, and crafting robust Lightning Web Components and Apex-based customizations. Skilled mentor and technical architect focused on driving code quality, operational efficiency, and modern platform adoption aligned with evolving Salesforce releases and enterprise security standards.

SKILLS

Salesforce Development: Apex, Lightning Web Components (LWC), Aura Components, Visualforce, Apex REST Services, Batch Apex, Queueable Apex, Invocable Apex, SOQL, SOSL, JavaScript, HTML5, CSS3

Salesforce Architecture & Integration: Salesforce Platform Architecture, REST APIs, SOAP API, GraphQL, Named Credentials, OAuth 2.0, Event-Driven Architecture, Platform Events, Change Data Capture

Salesforce Administration & Security: Salesforce Administration, Profiles, Roles, Permission Sets, Sharing Rules, CRUD/FLS Enforcement, Salesforce Shield Event Monitoring, Login Security, HIPAA Compliance

DevOps & Automation: GitHub, CI/CD Pipelines, Harness, Dynatrace, Splunk, Automated Testing, Code Reviews, Release Management

Languages & Tools: JavaScript, Python, Apex, Visual Studio Code, Postman, Jira, Confluence, Salesforce Inspector, Agile Methodologies

User Experience & Platform Adoption: UX Strategy, Experience Cloud, Agentforce, Salesforce Releases, Guided Customer Workflows, Salesforce OmniStudio

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Platform Engineer*

Dec 2024 - Present | Seattle, Washington, United States

- Led architecture and development of scalable Salesforce solutions using Apex, Lightning Web Components, and OmniStudio, improving guided workflows by 30%.
- Built and optimized integrations with internal systems via REST APIs and event-driven patterns, reducing data synchronization errors by 25%.
- Implemented advanced security controls including Salesforce Shield event log monitoring, enhancing incident detection and compliance monitoring.
- Championed engineering best practices and reusable code standards, increasing codebase maintainability and reducing technical debt by 20%.
- Mentored a team of 5 developers through code reviews and technical guidance, improving development velocity and solution quality.
- Evaluated and adopted new Salesforce platform features to drive platform adoption, including Agentforce AI-based case management innovations.
- Designed and executed debugging strategies for complex governor-limit and transaction boundary issues, increasing platform stability.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Designed and developed custom Salesforce Lightning Web Components and Aura Components to enhance user experience and business workflows.
- Integrated Salesforce with multiple enterprise systems using REST APIs and OAuth, enabling near real-time data flow across platforms.
- Implemented Python automation scripts to support off-platform batch processing and data quality monitoring, increasing processing efficiency by 15%.
- Supported DevOps pipelines using GitHub and Harness for continuous integration and deployment, accelerating release cycles by 20%.
- Collaborated closely with business analysts and product managers to translate requirements into scalable Salesforce technical solutions aligned with governance.
- Conducted security reviews and monitored Salesforce Shield logs, swiftly identifying and remediating access anomalies.
- Developed Experience Cloud portals improving customer self-service capabilities and reducing inbound support requests by 20%.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Built Apex REST services and event-driven integrations leveraging Platform Events and Change Data Capture to decouple system interactions.
- Supported technical design discussions on API architecture, governor limits, and asynchronous processing to ensure scalable solutions.
- Developed and optimized SOQL queries and Apex triggers ensuring bulkification and governor-limit adherence.
- Collaborated in Agile teams to deliver Salesforce releases, including testing, deployment, and post-release monitoring.
- Maintained Salesforce security models including profiles, permission sets, roles, and sharing rules to enforce least privilege access.
- Contributed to Salesloft integration, improving sales activity logging accuracy for 65 users.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Developed Salesforce CRM solutions for healthcare payer clients focusing on case management, HIPAA-aligned data security, and workflow automation.
- Designed and maintained Apex triggers, Visualforce pages, Lightning Components, and declarative automation, improving operational workflows by 25%.
- Performed detailed data quality management and cleanup of 6,000+ lead and contact records, improving pipeline accuracy.
- Configured user access controls and sharing settings to maintain strict compliance with healthcare data privacy requirements.
- Contributed to release documentation and audit readiness for regulated environments, improving compliance posture.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical troubleshooting and support services to over 200 faculty and staff, enhancing IT service quality and response times.
- Collaborated on Agile initiatives to implement efficient technology solutions addressing enterprise challenges.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed IT system risks and controls in Fortune 500 companies, identifying and documenting deficiencies to support risk mitigation.
- Executed over 20 process tests, providing detailed recommendations improving IT governance.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator
- Salesforce Certified Platform Developer I

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
