Triet Le

Senior Salesforce Developer | Salesforce Technical Consultant

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

SUMMARY

Senior Salesforce Developer with 7+ years of extensive experience in designing and building scalable Salesforce solutions across Sales, Service, and Experience Clouds. Expert in Apex development, Lightning Web Components, Flow automation, and API integrations, delivering complex enterprise applications while maintaining platform governance and performance. Proven ability to lead CRM enhancements and integrations, including AI-driven solutions like Agentforce, leveraging strong analytical and troubleshooting skills to optimize user experience and business outcomes.

SKILLS

Salesforce Development: Apex (Classes, Triggers, REST Services, Batch, Queueable, Future Methods), Lightning Web Components (LWC), Aura Components, SOQL, SOSL, JavaScript, Salesforce DX, Visualforce

Salesforce Automation & Declarative Tools: Salesforce Flow (Screen, Record-Triggered, Scheduled Flows), Process Builder, Workflow Rules, Approval Processes

Salesforce Integrations & APIs: REST API, SOAP API, Apex Callouts, Named Credentials, OAuth 2.0, Platform Events, Change Data Capture, MuleSoft integration design patterns

Salesforce Security & Access Control: Profiles, Permission Sets, Permission Set Groups, Sharing Rules, Role Hierarchies, Field-Level Security, CRUD Enforcement, Secure Apex Development

Salesforce Platform & DevOps: Salesforce DX, Source-Driven Development, Metadata API, Deployment Tools, Automated Testing, Release Management

Emerging Technologies: Salesforce Einstein AI, Agentforce, Salesforce OmniStudio (OmniScripts, FlexCards, DataRaptors, Integration Procedures), Experience Cloud, Industry Cloud Solutions

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Designed and developed scalable Lightning Web Components and Apex solutions, processing over 250,000 monthly transactions while optimizing for governor limits and bulkification, reducing automation failures by 20%.
- Implemented robust API-driven integrations using Salesforce REST APIs and event-driven patterns connecting internal SaaS and external platforms, enhancing data synchronization and process automation.
- Engineered declarative automation with Flow and Apex invocable actions replacing legacy workflows, improving maintainability and reducing technical debt.
- Led security model enhancements with permission sets, sharing rules, and Apex security best practices, cutting access-related support tickets by 15%.
- Contributed to AI-enhanced CRM workflows using Agentforce, developing validation scenarios that increased response accuracy and case routing efficiency.
- Developed comprehensive dashboards and reports to monitor KPIs, user adoption, and automation impact, supporting executive decision-making.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Delivered customized Lightning Web Components and Apex integrations supporting Sales, Service, and Experience Cloud features, driving a 10% increase in qualified meeting bookings through optimized lead routing via Chili Piper.
- Built and maintained REST/SOAP API integrations with cloud services using Named Credentials and OAuth 2.0 to ensure secure and reliable data exchange.
- Developed Salesforce OmniStudio components (OmniScripts, FlexCards, DataRaptors) for healthcare customer workflows aligned with HIPAA compliance.
- Configured complex Salesforce security models and sharing to accommodate enterprise-wide access and multi-tenancy requirements.
- Designed and implemented an Agentforce case triage proof of concept leveraging targeted topics and knowledge-grounded automated responses to improve customer support efficiency.
- Managed Salesforce releases and sandbox deployments using Salesforce DX and source-driven development processes.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed Apex REST services and integrations leveraging REST and SOAP APIs to automate billing and subscription processes, enhancing system interoperability.
- Implemented Platform Events and Change Data Capture to enable scalable event-driven integration reducing tight coupling between Salesforce and external systems.
- Supported Agile development lifecycle with design reviews, peer code reviews, UAT support, and deployment validation leading to improved release quality and stakeholder satisfaction.
- Built reusable and modular Lightning Components enhancing UI consistency and maintainability.
- Assisted in Salesforce administration tasks including security audits, data validation, and troubleshooting production incidents.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Developed and maintained Apex triggers, Visualforce pages, Lightning Components, and automation workflows supporting healthcare payer processes aligned with HIPAA standards.
- Optimized data quality management for over 6,000 lead and contact records through duplicate cleansing and validation improving CRM data accuracy by 15%.
- Managed security roles, profiles, and sharing settings ensuring appropriate access control across multiple Salesforce environments.
- Reduced document preparation time by 38% via maintenance of PandaDoc templates integrated with Salesforce Opportunity data.
- Documented deployment procedures and security configurations facilitating audit readiness and change management.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support and troubleshooting for over 200 staff, ensuring reliable technology service and swift resolution of issues.

- Collaborated on Agile projects to deliver IT solutions aligned with enterprise needs enhancing operational efficiency.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed IT control risks for Fortune 500 clients by reviewing documentation and testing processes, contributing to risk mitigation strategies.
- Identified system deficiencies and recommended improvements through detailed walkthroughs and report analysis.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Platform Developer I
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Salesforce Certified Administrator
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
