PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer & Expert Administrator*

Dec 2024 - Present | Seattle, Washington, United States

- Lead administration and security configuration for Salesforce Sales and Financial Services Cloud supporting 200+ users across multiple business units, ensuring platform stability and compliance.
- Designed and implemented robust permission models using profiles, permission sets, and role hierarchies reducing security incidents by 15%.
- Administered Salesforce Shield features including encryption and audit logging, strengthening data protection aligned with compliance mandates.
- Managed sandbox and scratch org environments with strict data masking, accelerating safe testing cycles by 30%.

- Streamlined Salesforce release management by conducting regression testing and coordinating releases impacting critical financial processes.
- Collaborated with Enterprise Security teams to enforce Salesforce security baselines that meet SOC 1 and SOC 2 compliance requirements across multiple orgs.
- Integrated Salesforce with external identity providers using Azure AD SSO, enhancing user authentication security and reducing login-related support tickets by 20%.
- Maintained Salesforce backup and recovery processes using OwnBackup; ensured 100% recovery readiness for data incidents.
- Contributed to Salesforce AI initiatives by configuring Agentforce use cases, improving customer service automation with accurate case triage.

Amazon Web Services (AWS) | *Senior Salesforce Developer & Administrator*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Acted as lead Salesforce Administrator for multi-org Sales Cloud environments supporting over 300 users, optimizing user access and security models.
- Developed and maintained Salesforce security models, including profiles, permission sets, sharing rules, and field-level security, to enforce least privilege principles.
- Implemented Salesforce-to-Salesforce integrations and external API connections improving data consistency across cloud systems.
- Configured and maintained managed packages and Salesforce DX deployments accelerating development workflows by 25%.
- Developed reports and dashboards tailored to sales operations and leadership, enhancing data-driven decision-making.
- Supported TalkDesk telecommunications platform integration enabling seamless omnichannel customer interactions.
- Led Salesforce release readiness activities including release notes review, sandbox testing, and stakeholder communication ensuring zero critical post-release issues.

Amazon Web Services (AWS) | *Salesforce Developer & Administrator*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Supported Salesforce administration activities including user provisioning, permission set management, and security audits across Sales and Service Cloud environments.
- Built Apex REST services and event-driven integrations using Platform Events and Change Data Capture to enable resilient, scalable data flows.
- Contributed to deployment and DevOps processes leveraging Salesforce DX, Git, and Jira to streamline release cycles.
- Developed automation using Apex, Flows, and Process Builder to support sales operations and case management workflows.
- Produced comprehensive reports and dashboards facilitating operational analytics and performance tracking.

Deloitte Consulting | *Salesforce Developer & Administrator*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Administered Salesforce environments for healthcare payer clients focusing on user access management, security, and data quality improvements compliant with HIPAA standards.
- Managed profiles, permission sets, roles, sharing rules, and field-level security to ensure controlled data access for over 1,000 users.

- Created reports, dashboards, and automation to improve efficiency of member services and case management processes.
- Performed data cleansing and duplicate management, enriching 6,000+ records with third-party data, improving data accuracy by 18%.
- Documented security and administrative processes, supporting compliance readiness and audit trails.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support and troubleshooting for over 200 faculty and staff, collaborating on Agile-based solutions for IT challenges.
- Supported security initiatives by identifying and mitigating threats within the university's IT environment.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed technology risks for Fortune 500 clients through detailed IT process walkthroughs, documentation reviews, and testing.
- Delivered risk and deficiency reports contributing to enhanced IT governance and security posture.
