Salesforce Clouds & Features: Sales Cloud, Service Cloud, Experience Cloud, OmniStudio (OmniScripts, FlexCards, DataRaptors, Integration Procedures), Agentforce

Security & Compliance: Profiles, Permission Sets, Sharing Rules, CRUD/FLS Enforcement, Record-Level Security, HIPAA Compliance, Salesforce Security Best Practices

Agile & Development Tools: Agile Scrum, Jira, Confluence, VS Code, Developer Console, Git, Automated Testing

Frontend & Web Technologies: JavaScript, HTML5, CSS3, Lightning Components Framework, Wireframing (InVision)

Data Management & Reporting: SOQL, SOSL, Salesforce Reports & Dashboards, Data Migration, Data Quality Management

Certifications & Platforms: Salesforce Platform Developer II, Platform App Builder, Certified Administrator, Salesforce Industries Developer, Vlocity Platform

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Architect and develop scalable Salesforce applications including Lightning Web Components and Salesforce Industries OmniStudio for guided workflows supporting customer service enhancements.
- Implemented bulk-safe Apex solutions handling over 250,000 records monthly, decreasing automation failures by 20% while adhering to Salesforce governor limits.
- Led API-driven integrations leveraging REST APIs, Named Credentials, and OAuth 2.0 with external SaaS platforms, improving data synchronization and system reliability.
- Designed and implemented Agentforce solutions, contributing to AI-assisted support workflows and validating response accuracy to improve case routing efficiency.
- Enforced least-privilege security models across internal and external users, reducing access-related support incidents by 15%.

- Enhanced release management by coordinating sandbox testing, documentation, and deployment strategies aligned with Salesforce best practices.
- Integrated Gong and Revenue.io tools with Salesforce to automate sales activity tracking and provide intelligent coaching insights, increasing sales productivity.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Developed custom Sales Cloud and Service Cloud configurations including flows, validation rules, and dashboards to optimize sales and healthcare payer workflows.
- Led Salesforce OmniStudio implementations using OmniScripts, FlexCards, and Integration Procedures to streamline healthcare member services and HIPAA-compliant processes.
- Architected and developed MuleSoft applications for Salesforce integration, improving data exchange efficiency and reducing system dependencies.
- Implemented Experience Cloud portals improving case status visibility and reducing email inquiries by 20%.
- Created an Agentforce case triage proof of concept integrating targeted topics and controlled human escalation, increasing first-contact resolution rates.
- Managed complex Salesforce security via permission sets, sharing rules, and profile configurations supporting enterprise governance and compliance.
- Deployed Chili Piper lead routing strategy handling 1,500 monthly leads, enhancing qualified meeting conversions by 10%.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed Apex REST services and integration APIs leveraging REST, SOAP, and Bulk APIs to connect Salesforce with external billing and analytics services.
- Utilized event-driven architectures using Platform Events and Change Data Capture, reducing tight coupling between Salesforce and downstream systems.
- Collaborated on technical designs for microservices and reusable Salesforce components, enhancing billing solution scalability.
- Supported Agile Scrum team with backlog refinement, peer code reviews, test automation, and deployment validation.
- Enhanced Salesforce administration by optimizing workflows, user access, and production issue resolutions to improve system stability.
- Maintained Salesloft–Salesforce integration for 65 sales users ensuring seamless cadence management and logging.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Implemented Salesforce solutions for healthcare payers including case management, workflow automation, and HIPAA-compliant data security configurations.
- Developed Apex triggers, Visualforce pages, and Lightning Components supporting critical healthcare business processes.
- Conducted extensive data quality initiatives, cleansing and enriching over 6,000 records, improving CRM reliability and user trust.
- Maintained PandaDoc template automation, reducing proposal preparation time by over 35%.

- Documented and enforced governance policies for security and deployment processes, ensuring audit readiness in regulated environments.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided comprehensive IT support to 200+ faculty and staff, resolving hardware, software, and network issues to maintain smooth operations.
- Collaborated with senior IT staff to develop Agile-driven technology solutions addressing enterprise IT challenges.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed technology risks and controls for Fortune 500 clients by reviewing documentation and conducting IT process testing.
- Identified critical deficiencies, contributing to risk mitigation recommendations and improved compliance.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator
- Salesforce Certified Platform Developer I

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
