Triet Le

Salesforce DevOps Release Engineer

Chandler, AZ, United States | +1(602) 825-3683 | trietle1997@outlook.com | LinkedIn

SUMMARY

Accomplished Salesforce DevOps Release Engineer with over 7 years of experience in Salesforce development and administration. Expert in leading release management, developing CI/CD pipelines, and establishing governance across Salesforce, Boomi, and AWS environments. Passionate about leveraging AI and automation to enhance deployment efficiency and reliability.

SKILLS

Salesforce Development & Management: Salesforce CLI, Metadata Deployments, Lightning Web Components (LWC), OmniStudio, Apex Development, Salesforce Governance, Release Management, CI/CD Pipelines

DevOps & Infrastructure Management: GitLab CI/CD, Terraform, Boomi, Infrastructure as Code, AWS, Automated Rollback Procedures, Deployment Monitoring, Release Governance

Automation & AI Tools: GitHub Copilot, AI-assisted Code Reviews, Intelligent Test Selection, Deployment Telemetry Analysis, Predictive Change Risk Scoring

Integration & API Development: Apex REST Services, Salesforce Integrations, REST/SOAP APIs, Batch Apex, Named Credentials, Event-Driven Integration Patterns

Observability & Support: Datadog, Splunk, Deployment Metrics, Incident Management, Production Issue Resolution

Cross-Platform Collaboration: Cross-Functional Team Leadership, Developer Mentorship, Release Process Improvement, Knowledge Transfer

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Enhanced Salesforce release processes by implementing CI/CD pipelines using Salesforce CLI and GitLab CI/CD, minimizing manual efforts and increasing deployment reliability.
- Established governance standards and approval gates to ensure compliance with enterprise release policies and reduced change failure rates.
- Mentored cross-functional engineering teams on Salesforce best practices and Platform Engineering methodologies to improve development productivity and coordination.
- Initiated AI-driven deployment automation strategies to optimize release velocity and improve system resilience, exploiting tools like GitHub Copilot for testing and code review.
- Designed monitoring dashboards using Datadog and Splunk to proactively address potential deployment issues, achieving faster mean time to recovery (MTTR).

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Led the implementation of GitLab CI/CD pipelines for Salesforce deployments, integrating Terraform to automate AWS infrastructure provisioning with precision.
- Collaborated with security and compliance teams to integrate organizational controls into Salesforce deployment workflows, assuring audit readiness and regulatory compliance.

- Optimized Salesforce integration workflows using Apex RESTful services, reducing lead time for changes while maintaining quality and dependability.
- Standardized release governance processes, implementing change advisory board (CAB) meetings to streamline deployment discussions and approvals.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Spearheaded the creation of Salesforce CI/CD processes and automated testing frameworks, significantly improving deployment success rates.
- Developed robust rollback procedures and automated monitoring tools to quickly identify and mitigate deployment issues, reducing production impacts.
- Utilized Platform Events and Change Data Capture to drive reliable event-driven integrations within Salesforce and across external systems.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Executed Salesforce CRM implementations, focusing on healthcare workflows and HIPAA-compliant security configurations.
- Developed and maintained automated release processes and CI/CD pipelines, significantly reducing deployment times and improving release predictability.
- Conducted thorough code and deployment reviews to uphold high standards of quality assurance in line with industry best practices.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support and troubleshooting services for university enterprise systems, collaborating with senior tech teams to implement agile solutions.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Assessed technology risks for Fortune 500 companies, demonstrating attention to detail and critical thinking in risk evaluation and documentation reviews.

CERTIFICATIONS

- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder Certification
- Salesforce Certified Administrator (SCA)
- Salesforce Certified Platform Developer I

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
