Ford Pro - Salesforce Engineer

Job URL

Dear Hiring Manager,

As a seasoned Senior Salesforce Developer and Architect with over 7 years of experience, I am excited about the opportunity to contribute to Ford Motor Credit Company as a Senior Salesforce Engineer. My comprehensive background in designing secure, scalable Salesforce solutions aligns with your requirements for enhancing capabilities at your global dealerships.

I have a proven track record of architecting and integrating Salesforce platforms using Apex, LWC, and OmniStudio to improve service and sales workflows. At Docker, Inc., my leadership on several projects reduced automation failures by 20% and support requests by 15%, demonstrating agility and problem-solving skills critical to this position. Additionally, my work at AWS optimizing CRM processes and building integrations led to a 10% increase in qualified meetings.

My strong communication skills allow me to bridge the gap between technical and business teams, as shown by my ability to translate complex requirements into actionable technology solutions. I am adept at mentoring teams, ensuring code excellence, and driving automated testing practices to ensure robust system deployment.

I am eager to bring my skills in Salesforce architecture, security, and integration to your team. I am confident that my proactive approach to solving business challenges and my commitment to technological excellence will greatly benefit Ford Motor Credit Company.

Thank you for considering my application. I look forward to discussing how I can help drive innovation and achieve strategic goals at Ford.

Sincerely,

Triet Le
