Job description

FormativGroup - Senior Salesforce Solution Engineer - Horizontal

Job URL

Senior Salesforce Solution Engineer - Horizontal

FormativGroup is a business technology consulting company that helps organizations connect applications and systems to business processes. The Senior Salesforce Solution Engineer partners with sales, industry, alliance, and delivery teams to shape Salesforce transformation opportunities, lead discovery, design practical solutions, and support technical proposals and presentations.

ConsultingCloud ComputingIT ManagementService Industry

No H1B

Responsibilities

Partner with Account Executives throughout the sales cycle to qualify opportunities, shape technical strategy, and support pursuit execution

Lead discovery sessions to understand current-state business processes, user needs, operational challenges, and desired business outcomes

Collaborate with Industry SMEs to translate strategic business objectives into practical Salesforce solution approaches

Analyze business processes, identify improvement opportunities, and recommend solution alternatives while clearly articulating business and technical tradeoffs

Design scalable solution approaches leveraging Salesforce, Agentforce, Data Cloud, Experience Cloud, Sales Cloud, Service Cloud, and modern integration patterns

Develop compelling demonstrations, prototypes, proof-of-concepts, and executive presentations tailored to client-specific business scenarios

Partner with sales leadership to develop technical win strategies and differentiate Formativ throughout the sales cycle

Lead the technical portions of proposals, RFPs, RFIs, Statements of Work, and client presentations

Work closely with Delivery leaders and Solution Architects to ensure proposed solutions are practical, implementable, and aligned with delivery best practices

Contribute to reusable demonstrations, reference architectures, solution assets, and presales collateral

Capture insights from customer engagements to help improve offerings, sales plays, and solution assets

Maintain current Salesforce certifications and continuously expand expertise in Salesforce AI capabilities and emerging platform technologies
