Louisiana Economic Development - Senior Salesforce Developer with Omnistudio experience

Job URL

Dear Hiring Manager,

As a seasoned Senior Salesforce Developer with demonstrated expertise in OmniStudio and Experience Cloud, I am eager to contribute to CGI's public sector technology consulting team. My professional journey has equipped me with a robust skill set in developing scalable Salesforce solutions with OmniStudio, empowering public and internal digital platforms. At Docker, I pioneered AI-enabled automation, improving process efficiency by 20%. My technical leadership enabled the mentoring of development teams at AWS, raising the bar for code quality and compliance adherence. I am well-versed in Salesforce integrations, with a proven track record of meeting demanding security and data privacy standards, making my experience highly relevant to CGI’s focus on secure, compliant, and efficient public sector solutions. I am excited about the prospect of bringing my skills to CGI, where I can leverage my experience to create high-impact, citizen-centric solutions that cater to government needs.

Thank you for considering my application. I look forward to contributing to CGI’s innovative projects and being part of a pioneering team.

Sincerely,

Triet Le
