PSI (Proteam Solutions) - Sr. Software Engineer

Job URL

Dear Hiring Manager, I am writing to express my interest in the Senior Software Engineer position at PSI, where I can contribute my substantial expertise in Salesforce architecture and development. As a Salesforce professional with over 7 years of experience, including architecture and integration of complex solutions across Service Cloud and Community Cloud, I have continuously leveraged my skills to resolve critical production issues, optimize platform performance, and implement seamless system integrations. At AWS, I led integrations and worked closely with cross-functional teams to ensure robust, compliant solutions that enhance operational efficiency and data integrity. Notably, my leadership in architecting integrations using REST APIs and improving security protocols contributed significantly to organizational success. The engineering challenges at PSI align perfectly with my experience in technical governance and my passion for designing scalable, impactful solutions. With a strong foundation in technical planning, stakeholder communication, and team mentorship, I am well-equipped to drive forward the complex Salesforce initiatives essential to your objectives. Thank you for considering my application. I am enthusiastic about the opportunity to bring my experience to PSI and contribute to your team's success. Sincerely, Triet Le
