Communication & Leadership: Stakeholder Communication, Technical Planning, Team Mentoring, Architecture Reviews, Release Management

PROFESSIONAL EXPERIENCE

Docker, Inc | *Senior Salesforce Developer and Architect*

Dec 2024 - Present | Seattle, Washington, United States

- Led the architecture and development of Salesforce solutions including Lightning Web Components, OmniStudio, Apex, and integrations with external platforms, enhancing customer and service workflows.
- Implemented scalable integration patterns using REST APIs, Platform Events, and OAuth to connect Salesforce with enterprise systems, achieving robust data exchange.
- Managed Salesforce security and user access, optimizing profiles, permission sets, and role hierarchies to minimize access issues by over 15%.
- Drove the adoption of modern flow architectures replacing obsolete processes, resulting in maintenance efficiency and increased reliability.
- Developed Salesforce reports and dashboards to support decision-making, operational KPI tracking, and business process performance analysis.

- Acted as a subject matter expert for Salesforce platform governance, addressing production challenges related to governor limits, automation failures, and integration obstacles.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Architected solutions involving Service Cloud, Community Cloud, and complex enterprise integrations using REST APIs and asynchronous patterns.
- Enhanced security protocols for extensive user bases, ensuring compliance with organizational standards and reducing support overhead.
- Designed and deployed custom Lightning Web Components and Aura components, improving user experience and platform efficiency.
- Delivered key healthcare CRM solutions adhering to HIPAA standards, supporting secure data interactions and modular system expansion.
- Facilitated knowledge sharing and expert consultations on Salesforce capabilities, optimizing CRM and automation strategies for diverse business needs.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Developed and integrated Apex REST services with Salesforce, streamlining external data interactions and processing routine operations effectively.
- Collaborated across teams to identify architectural improvements, enabling robust, scalable CRM implementations aligned with Salesforce best practices.
- Utilized event-driven integration methods to support seamless platform adaptability to evolving business requirements.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Executed Salesforce CRM implementations, focused on member services, security configuration, and streamlined case management.
- Optimized existing Salesforce environments, improving data quality and customizing solutions to align with client demands and compliance needs.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided comprehensive technical support and collaboratively developed agile solutions, enhancing service reliability and user satisfaction.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Conducted detailed risk assessments for Fortune 500 companies, developing actionable insights that contributed to improved system integrity.
- Collaborated on risk management processes with senior staff, enhancing organizational awareness of potential technology risks.
