Job description

Robert Half - Salesforce Marketing Cloud Developer (Contract Talent)

Job URL

Salesforce Marketing Cloud Developer (Contract Talent)

Robert Half is hiring a Salesforce Marketing Cloud Developer to join its Marketing department. The role designs, develops, implements, and supports end-to-end Salesforce Marketing Cloud solutions, including customer journeys, campaigns, segmentation, integrations, and automation. The developer will collaborate with stakeholders and analytics teams while ensuring high-quality, secure, scalable, and data-driven marketing solutions.

Responsibilities

Design, develop, implement, and support end-to-end Salesforce Marketing Cloud solutions

Build and manage customer journeys, email campaigns, audience segmentation, and automation processes

Develop responsive email templates and landing pages using HTML, CSS, AMPscript, and SSJS (Server-Side JavaScript)

Create and optimize SQL queries for audience creation, data management, reporting, and campaign execution

Integrate Salesforce Marketing Cloud with enterprise platforms using APIs and data connectors

Configure and manage Marketing Cloud modules including: Email Studio, Journey Builder, Automation Studio, Mobile Studio, Contact Builder, Advertising Studio, CloudPages, Intelligence Reports and Analytics

Collaborate with business stakeholders to gather requirements and translate them into scalable technical solutions

Perform troubleshooting, debugging, and root cause analysis for campaign and data issues

Ensure solutions follow Salesforce best practices, security standards, and governance policies

QA every send across devices and clients and own rendering, deliverability, hygiene, and send-time troubleshooting

Build reusable templates, code libraries, and documentation that speed up production and reduce errors

Partner with analytics to instrument tracking and support A/B and multivariate testing
