Robert Half - Salesforce Marketing Cloud Developer (Contract Talent)

Job URL

Dear Hiring Manager, I am eager to bring my over 7 years of hands-on experience in Salesforce Marketing Cloud to your team at Robert Half. With a deep understanding of end-to-end marketing automation solutions, customer journey optimization, and cross-functional collaboration, I am skilled in delivering scalable and data-driven marketing strategies that adhere to Salesforce best practices. My work with Docker and AWS includes designing consistent, responsive email campaigns and implementing seamless APIs for integrated platform functionalities. I am adept in HTML/CSS, AMPscript, and SSJS, which, coupled with my stakeholder management acumen, enables me to handle multiple projects and deadlines effectively. I am especially proud of engineering reusable code libraries and documentation that reduced errors and accelerated marketing processes. I look forward to leveraging these accomplishments at Robert Half, leading to innovative, secure, and high-quality solutions for the company's marketing ambitions. Sincerely, Triet Le
