Cover letter

Skechers - Sr. Salesforce Architect / Engineer

Job URL

Dear Hiring Manager,

With over 7 years of robust experience in Salesforce platform development and architecture, I am eager to contribute to Skechers' transformative engineering practice. My proven track record in leading Salesforce integrations, SOQL development, and Lightning Web Components has equipped me with a precise understanding of how to leverage Salesforce's capabilities for optimal CRM solutions. During my tenure at AWS and Docker, Inc, I effectively designed scalable Salesforce architectures and implemented CI/CD pipelines, contributing to seamless release and deployment processes. My expertise in Apex, Salesforce DX, and cloud integration is perfectly aligned with the core needs of this role. I am proficient in handling complex technical challenges and improving code quality standards, which are essential for modern cloud-native development practices. I am excited about the prospect of working at Skechers and furthering my contribution to enhancing your Salesforce capability.

Sincerely,
Triet Le
