Job description

Abnormal AI - Salesforce Administrator, CPQ

Job URL

Salesforce Administrator, CPQ

Abnormal AI is seeking a Salesforce Administrator to own its Salesforce CPQ platform and manage the intake process for Salesforce requests. The role focuses on CPQ configuration, quote-to-cash workflows, requirements gathering and scoping, end-user support, and the use of AI-assisted tooling to improve operational efficiency.

Artificial Intelligence (AI)Cyber SecurityTelecom & CommunicationsInformation TechnologyEmailNetwork Security

H1B Sponsor Likely

Unicorn with $5.1B valuation

Responsibilities

Own end-to-end Salesforce CPQ configuration: product rules, price rules, bundles, and approval flows

Manage quote-to-cash workflows, including contract generation and e-signature integrations

Serve as the primary point of contact for CPQ end users, providing troubleshooting, enablement, and documentation

Own the requirements intake process for incoming Salesforce administrative requests: gather requirements, scope complexity, and route or prioritize work appropriately

Handle intake and resolution of low-complexity Salesforce configuration requests directly, keeping quick wins from adding to the broader backlog

Use and evolve AI-assisted tooling to speed up requirements gathering, documentation, and solution scoping

Partner cross-functionally with Sales Operations, Marketing Operations, and other Salesforce administrators to keep requests moving smoothly from ask to resolution

Qualification

Find out how your skills align with this job's requirements. If anything seems off, you can easily click on the tags to select or unselect skills to reflect your actual expertise.

Salesforce AdministrationSalesforce CPQ ConfigurationSalesforce Administrator CertificationQuote-to-Cash WorkflowsDocuSignSpotDraftRequirements Gathering and ScopingNue.ioCongaDealHubSalesforce FlowValidation RulesPermission Sets

Required

3–5 years of hands-on Salesforce Administration experience, including CPQ configuration in a production environment

Salesforce Administrator certification required

Hands-on Salesforce CPQ configuration experience: product rules, price rules, bundles, and approval flows

Experience with quote-to-cash workflows and contract/e-signature tools (e.g., DocuSign, SpotDraft)

Strong requirements-gathering and scoping skills — able to translate ambiguous requests into clear, actionable tickets

Comfort owning a process end-to-end, from initial intake conversation through routing and prioritization

Preferred

Salesforce CPQ Specialist certification or experience implementing CPQ Systems (Nue.io, Conga, Dealhub, etc.)

Broader Salesforce declarative configuration experience (Flow, validation rules, permission sets) beyond CPQ

Experience supporting Sales, Marketing Operations, or RevOps stakeholders directly

Familiarity with AI-assisted requirements-gathering or documentation tools

Bachelor's degree or equivalent experience

Benefits

May be eligible for bonus or incentive compensation

May be eligible for equity

A comprehensive benefits package
