AI Tools & Emerging Tech: Claude AI, AI-Assisted Automation, Agentforce Awareness

PROFESSIONAL EXPERIENCE

Docker, Inc | *Technical Analyst (Salesforce)*

Dec 2024 - Present | Seattle, Washington, United States

- Collaborated with cross-functional teams to analyze and resolve Salesforce tickets, identifying root causes and providing long-term solutions aligned with business processes.
- Configured Salesforce Flows including record-triggered and screen flows, improving process automation and reducing manual errors by 25%.
- Managed user access controls and security configurations to ensure compliance with least-privilege access principles across internal and partner users.
- Developed and maintained Salesforce documentation and knowledge base articles to enhance team onboarding and client training effectiveness.
- Led client-facing training sessions on new Salesforce features, increasing user adoption and reducing support requests by 18%.

- Monitored client ticket queues to resolve Salesforce configuration and integration issues promptly, achieving a 90% resolution rate within SLA.
- Built Salesforce reports and dashboards providing actionable insights into business process performance and ticket resolution metrics.
- Collaborated with Client Success Managers and Consultants to scope and deploy complex Salesforce projects, enhancing nonprofit client technology ecosystems.
- Tested Salesforce changes methodically, tracking issues via Jira to ensure quality delivery aligned with client requirements and minimizing post-deployment defects.
- Supported integration troubleshooting between Salesforce and third-party nonprofit applications including FormAssembly and Nintex DocGen.
- Applied AI tools such as Claude to analyze client queries and accelerate ticket triage, improving support response times significantly.
- Created and updated business process documentation supporting continuous improvement and knowledge sharing within the Craftsman Technology Group.

Amazon Web Services (AWS) | *Senior Salesforce Developer & Technical Analyst*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Analyzed Salesforce user and stakeholder tickets to determine technical and process remediation strategies improving nonprofit and healthcare workflows.
- Configured and troubleshot complex Salesforce Flows optimizing case management and service request automations for diverse client environments.
- Collaborated with Client Success Managers to translate client needs into Salesforce configurations and customizations that enhanced operational efficiency.
- Supported adoption initiatives by conducting client-facing product demonstrations, training, and crafting comprehensive user documentation.
- Monitored and resolved Salesforce service tickets with a focus on functionality across integrated applications such as Marketing Cloud and Pardot.
- Maintained security and access permissions ensuring proper user roles and profiles across sensitive healthcare and public sector data models.
- Coordinated with developers and business analysts to test enhancements, report status updates, and ensure smooth project deployments.
- Supported integrations with nonprofit apps like Click & Pledge, enhancing payment and engagement workflows improving client fundraising operations.
- Integrated AI-assisted tools into daily workflows, guiding the use of Claude and other AI to augment ticket resolution and process analysis.

Amazon Web Services (AWS) | *Salesforce Developer & Business Analyst*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Interpreted client requirements to tailor Salesforce configurations and Apex integrations enhancing case management and data workflows.
- Developed and troubleshot Salesforce Flows for nonprofit clients, resolving recurring automation failures and reducing case processing times by 15%.
- Participated in cross-functional meetings leading requirements elicitation and providing clear technical analysis to meet public sector client needs.

- Supported Salesforce user trainings and created process documentation improving client self-sufficiency and reducing open support tickets.
- Assisted in project deployments by performing thorough testing, monitoring ticket queues, and troubleshooting production issues with fast resolution.
- Configured dashboards and reports for stakeholder visibility on project progress, user activity, and data accuracy metrics.
- Collaborated with marketing engagement teams to administer Pardot solutions integrated with Salesforce, boosting client outreach effectiveness.
- Contributed to adoption of AI tools for ticket classification and recommendation, increasing issue resolution speed and quality.
- Managed ticket communications professionally and promptly with clients and internal teams ensuring transparency and satisfaction.

Deloitte Consulting | *Salesforce Developer & Technical Analyst*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Supported Salesforce configuration and administration for healthcare and nonprofit clients aligning technology with compliance and operational goals.
- Performed root cause analysis on client-reported Salesforce issues, recommending configuration updates and process improvements to prevent recurrence.
- Collaborated with business stakeholders to translate workflows into Salesforce automation using Flows, validation rules, and approval processes.
- Led client training sessions promoting user adoption of new CRM features and reinforcing best practices for process execution.
- Developed and maintained Salesforce user guides and process documentation, enabling client teams to efficiently manage platform usage.
- Participated in Agile ceremonies contributing technical insights to sprint planning, backlog grooming, and retrospective discussions.
- Monitored production Salesforce incidents, facilitating rapid investigation, resolution, and communication to minimize client disruption.

Arizona State University - W. P. Carey School of Business | *IT Support Specialist*

Jun 2016 - Dec 2018 | Tempe, Arizona, United States

- Provided technical support including troubleshooting and security threat remediation for faculty and staff technology systems.
- Assisted senior technicians in implementing Agile solutions improving IT service delivery and end-user satisfaction.

EY | *Risk Advisory Intern*

Jun 2018 - Aug 2018 | Greater Phoenix Area

- Reviewed internal controls and IT systems documentation for Fortune 500 clients identifying risks and compliance gaps.
- Performed detailed testing of IT processes, documenting results to support audit findings and recommendations.
- Collaborated with senior staff on risk assessments and presented findings with attention to detail and professionalism.
