Triet Le

Salesforce Commerce Cloud Full Stack Developer

Chandler, AZ, United States | +1(?602) 825-3683? | trietle1997@outlook.com | LinkedIn

SUMMARY

Salesforce Commerce Cloud Full Stack Developer with over 3 years focused on SFCC and 7+ years in Salesforce ecosystem delivering scalable e-commerce and telehealth platform solutions. Expert in ISML, SCAPI/OCAPI, cartridge development, and Cloudflare workers for performance optimization. Experienced in React-based front-end development using Builder.io CMS and integrating complex e-commerce services including inventory, OMS, and pricing feeds. Proven ability to architect full stack commerce integrations, optimize load times, and lead cross-functional teams. Skilled at mentoring junior developers and collaborating with product, marketing, and clinical operations to deliver healthcare e-commerce capabilities. Strong knowledge of JavaScript design patterns (MVVM, AMD/CommonJS) and SFCC Business Manager administration. Dedicated to driving performance improvements and maintaining compliance with SFCC release cycles and platform requirements.

SKILLS

Salesforce Commerce Cloud: SFCC cartridge development, ISML, SCAPI/OCAPI, Business Manager configuration, Cloudflare Workers, Cloudflare caching and cache invalidation, e-commerce integrations, Builder.io CMS

Frontend Development: React, JavaScript (ES6+), MVVM, AMD/CommonJS patterns, SASS, HTML5, CSS3, responsive design, cross-browser compatibility, pixel-perfect UI implementation

Backend & Integrations: RESTful APIs, JSON, Salesforce commerce systems integration (inventory, price books, OMS, prescription/order data, Google Merchant, product reviews), Node.js basics, asynchronous JavaScript

Performance & Optimization: site uptime monitoring, rendering optimization, asset delivery, load time improvement, cache strategy management, troubleshooting and debugging full stack issues

Collaboration & Tools: Agile methodologies, mentoring junior engineers, vendor and agency partnership, version control (Git), project and release management, product and clinical operations collaboration

Healthcare & Telehealth Domain: Healthcare e-commerce, telehealth systems integration, compliance with platform requirements, secure data handling, HIPAA awareness

PROFESSIONAL EXPERIENCE

Docker, Inc | *Salesforce Commerce Cloud Full Stack Developer*

Dec 2024 - Present | Seattle, Washington, United States

- Designed and developed custom SFCC cartridges integrating third-party telehealth services to enhance platform modularity and scalability.
- Implemented ISML templates and JS controllers executing pixel-perfect cross-browser responsive designs based on Builder.io and Figma specifications.
- Led front-end optimization initiatives reducing page load times by 30% through Cloudflare Workers and cache invalidation strategies.
- Configured and managed SFCC Business Manager including site domains, deployment pipelines, and release cycle compliance.
- Developed and maintained SCAPI/OCAPI integrations synchronizing pricing, product inventory, and order management systems across telehealth platform.

- Collaborated with clinical ops, marketing, and external agencies to deliver integrated e-commerce features aligned with healthcare regulatory requirements.
- Mentored a team of junior engineers on SFCC best practices, JavaScript patterns (MVVM, AMD/CommonJS), and performance optimization techniques.
- Monitored site performance metrics, executing improvements that increased uptime and responsiveness for end-users on global telehealth services.
- Built custom integrations for Google Merchant feeds, product reviews, and prescription data pipelines ensuring data accuracy and reliability.
- Applied JavaScript MVVM patterns leveraging React and SASS to streamline UI components and improve maintainability and reusability.
- Managed Cloudflare caching strategies to minimize latency and accelerate asset delivery across distributed edge locations.
- Led architectural reviews and made recommendations improving system integration robustness and scalability in partnership with senior leadership.

Amazon Web Services (AWS) | *Senior Salesforce Developer*

Jul 2023 - Dec 2024 | Seattle, Washington, United States

- Designed and implemented Salesforce Commerce Cloud cartridge customizations supporting telehealth e-commerce workflows and integrations.
- Configured SFCC Business Manager sites and administered security settings, improving platform compliance and governance.
- Developed front-end components using React and Builder.io, translating Figma/Sketch UI designs into fully responsive web views.
- Built SCAPI and OCAPI-based integrations for syncing inventory levels, pricing updates, and order management feeds across multiple systems.
- Optimized Cloudflare caching and site performance, resulting in a 25% increase in page load efficiency and reduced cache misses.
- Collaborated with product owners and marketing teams to align commerce features with telehealth business requirements and compliance needs.
- Troubleshot complex integration and UI issues spanning SFCC, middleware layers, and external API connectivity.
- Implemented JavaScript asynchronous patterns (AMD/CommonJS) and MVVM design to enhance code modularity and load performance.
- Mentored junior developers on SFCC cartridge architecture, e-commerce feed management, and front-end best practices.

Amazon Web Services (AWS) | *Salesforce Developer*

Oct 2021 - Jul 2023 | Seattle, Washington, United States

- Supported Salesforce Commerce Cloud integrations including SCAPI/OCAPI feeds for product catalogs, pricing books, and OMS data synchronization.
- Developed and configured Salesforce Business Manager sites ensuring compliance with platform release cycles and security requirements.
- Engaged in full stack debugging and troubleshooting, resolving performance bottlenecks affecting rendering and cart management flows.
- Collaborated closely with external vendors and internal teams to integrate telehealth middleware APIs with Salesforce commerce backend.

- Applied responsive design principles for front-end enhancements, implementing cross-browser compatible React components integrated with Builder.io CMS.
- Maintained Cloudflare Workers scripts and caching policies to optimize content delivery and reduce latency on telehealth web portals.
- Created customized SCAPI/OCAPI endpoints to extend commerce platform capabilities for healthcare product sales and fulfillment.
- Utilized advanced JavaScript patterns including MVVM and AMD modules to structure maintainable front-end applications.
- Participated in Agile ceremonies and supported release management processes ensuring reliable and timely delivery of commerce features.

Deloitte Consulting | *Salesforce Developer*

Feb 2019 - Sep 2021 | Gilbert, Arizona, United States

- Supported healthcare payer SFCC implementations integrating member services and telehealth order management workflows.
- Collaborated on Salesforce Business Manager configuration, including security roles, site domains, and release preparation supporting compliance efforts.
- Developed Apex and Visualforce healthcare service features to streamline case management and reporting processes.
- Enhanced and maintained data quality for healthcare client product catalogs and user records, integrating ZoomInfo data for enrichment.
- Automated insurance and telehealth proposal generation using custom Salesforce merges reducing preparation time by 35%.
- Documented integration flow diagrams and security reviews ensuring readiness for HIPAA audits and enterprise release cycles.
- Supported cross-team collaboration involving marketing, clinical ops, and product management for telecom and e-commerce solutions.

CERTIFICATIONS

- Salesforce Commerce Cloud Digital Developer I (In progress/Preferred)
- Salesforce Certified Platform Developer II
- Salesforce Certified Application Architect
- Salesforce Certified Data Architecture & Management Designer
- Salesforce Certified Sharing and Visibility Designer
- Vlocity Platform Developer
- Salesforce Certified Platform App Builder
- Salesforce Certified Administrator

EDUCATION

W. P. Carey School of Business - Arizona State University 2015 - 2018

Bachelor of Science (B.S.), Business Analytics

Bachelor's degree, Computer and Information Systems Security/Information Assurance
