Cover letter

SolarWinds - Senior Product Owner, Salesforce CPQ/RCA

Job URL

Dear Hiring Manager,

The key challenge at SolarWinds revolves around modernizing and optimizing Salesforce CPQ capabilities to enhance quote-to-cash processes within a complex, multi-product enterprise environment. My extensive experience owning Salesforce CPQ product roadmaps and leading backlog grooming aligns directly with this need. At Docker, Inc, I managed the end-to-end CPQ roadmap and led agile delivery with offshore scrum teams, driving measurable improvements in quote accuracy and approval turnaround, key KPIs highlighted in your job description.

I bring over 7 years of Salesforce expertise including deep proficiency in Salesforce CPQ, Revenue Cloud concepts, and Sales Cloud data architecture, enabling successful transitions to scalable, configuration-driven solutions. My hands-on leadership in sprint planning, backlog prioritization, and risk mitigation has resulted in consistent, high-quality CPQ releases that reduced technical debt while increasing platform adoption.

This experience transfers naturally to SolarWinds, where balancing technical and business priorities is critical. My strong communication and stakeholder collaboration skills will ensure effective cross-team alignment, helping SolarWinds accelerate business transformation by delivering a robust and modernized Salesforce CPQ platform.

Thank you for your consideration. I look forward to discussing how I can contribute to your team’s success.

Sincerely,
Triet Le
